LETTER OF TRANSMITTAL

TO THE BOARD OF FIRE AND POLICE PENSION COMMISSIONERS

June 30, 2023

Fiscal Year 2022-23 was a time of transition at LAFPP. The year began with our Chief Investment Officer (CIO) position vacant and in September 2022, my predecessor Ray Ciranna retired and I was appointed as the Interim General Manager. I arranged for our former CIO Tom Lopez to return in November 2022 to serve as the Interim CIO while the recruitment process for a new permanent CIO took place. In February 2023, Assistant General Manager/Executive Officer Bill Raggio retired after working at LAFPP for over 15 years. Additionally, like all City departments, LAFPP faced a high vacancy rate as we continued our efforts to fill positions in other areas of the organization. As the year progressed, our new executive management team took shape and we filled many other critical positions. Fortunately, we had two talented Chief Benefits Analysts, Myo Thedar and Greg Mack, who both worked at LAFPP for many years and were ready to be promoted into the two Assistant General Manager roles. The fiscal year concluded with the appointment of our new CIO, Bryan Fujita, and a renewed focus on staff development as we prepare our workforce to become the leaders of tomorrow.

Status of The Fund

Our investment return for the year was 7.78%, exceeding our 7.00% actuarial assumed rate of return. As a result, the market value of assets grew from \$28.0 to \$29.39 billion. As a retirement system that has been in existence since 1899, we are by nature a long-term investor and our 30-year investment rolling rate of return of 8.14% demonstrates that our diversified asset allocation plan continues to be a key driver of the Plan's resiliency.

For six consecutive years, our overall combined funded ratio on an actuarial basis increased and now stands at 96.8%, up from 95.0% the prior year. Separately, the pension benefits are funded at 99.5% (up from 98.0%) while retiree health benefits are funded at 77.7% (up from 74.3%) on an actuarial basis. The Plan's combined unfunded actuarial accrued liability decreased from \$1.46 billion to \$975 million.

Accomplishments

Each year staff develops and submits a Business Plan to the Board for approval. The Business Plan is designed to further the goals stipulated in the Three-Year (2022-2024) Strategic Plan and keep the Department's resources focused on the most crucial areas.

The goals of the current Strategic Plan are as follows:

- 1) Ensure a Financially Sound Retirement System
- 2) Manage Risk Throughout the Organization
- 3) Enhance Customer Care & Stakeholder Relations
- 4) Pursue Operational Efficiencies
- 5) Build and Support a Talented Workforce
- 6) Promote Diversity, Equity and Inclusion (DEI) Throughout the Organization Including Our Investment Portfolio and Business Partners

The 2022-23 Business Plan included fourteen projects, twelve of which were completed, with the other two being multi-year projects that will continue into the following year. During Fiscal Year 2022-2023, staff completed several projects including the establishment of new funds, accounts, and financial reporting for the 115 Trust, which will fund the Plan's retiree health benefits in the future; implementation of a new global credit investment mandate; introduced a new option for former members to receive their refund of contributions via wire transfer; produced video guides to assist members with completing various forms; and became signatories to the Institutional Limited Partners Association (ILPA) Diversity in Action Initiative. Details regarding the Fiscal Year 2022-23 Business Plan can be found on our website at www. lafpp.com/strategic-and-business-plans.

Looking Ahead

As Fiscal Year 2022-23 ends, I reflect on the positive steps we have taken to assemble a diverse group of executive managers with a range of skills, experience, and perspectives to lead the department forward. I am confident that LAFPP is well-positioned for the future with staff who are dedicated to serving members and focused on the Fund's mission and success.

I am proud to work alongside such dedicated staff who have continued to work tirelessly to meet our members' needs, especially given the high vacancy rate we experienced during the prior year. I am grateful for each and every person and their commitment to LAFPP. I would also like to thank the Board for their dedication to the Plan and their support of the staff in our partnership to serve our members. I am excited to lead our amazing team and look forward to continuing to serve our valued members who protect the City of Los Angeles.

Sincerely,

Joseph Salazar

General Manager

SYSTEM ADMINISTRATION The Fire and Police Pension System is administered by a Board of nine commissioners: five appointed by the Mayor and four elected by members. Fire and Police sworn employees each elect one active member, and Fire and Police retirees each elect one retired member. The Board administers the System in accordance with the City Charter and the State Constitution. Article XVI, Section 17 (a) of the State Constitution provides the Board "sole and exclusive responsibility to administer the system in a manner that will assure prompt delivery of benefits and related services to the participants and their beneficiaries." Section 17 (b) further provides that "members of the Retirement Board of a public retirement system shall discharge their duties ... solely in the interest of, and for the exclusive purpose of, providing benefits to participants and their beneficiaries, minimizing employer contributions thereto, and defraying reasonable expenses of administering the system. A Retirement Board's duty to its participants and their beneficiaries shall take precedence over any other duty." BOARD MEETINGS The Board meets on the first and third Thursdays of the month at 8:30 a.m. Most meetings, including special meetings, are from two to four hours in duration. The Board's current directory and meeting information are available on the Department website at: www.lafpp.com/board. 8 **LAFPP ANNUAL REPORT 2023**

INDEPENDENT AUDITOR'S REPORT

To the Board of Fire and Police Pension Commissioners Los Angeles Fire and Police Pension System

Opinions

We have audited the accompanying financial statements of the Pension Plan and Health Subsidy Plan, administered by the Los Angeles Fire and Police Pension System (the System), which comprise the statements of fiduciary net position as of June 30, 2023 and 2022, and the related statements of changes in fiduciary net position for the years then ended, and the related notes to the basic financial statements for each plan as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective fiduciary net position of the Pension Plan and Health Subsidy Plan, as of June 30, 2023 and 2022, and the respective changes in fiduciary net position for the years then ended in accordance with accounting standards generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the System, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events considered in the aggregate, that raise substantial doubt about the System's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standard* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the System's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 27, 2023, on our consideration of the System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the System's internal control over financial reporting and compliance.

Los Angeles, California

Simpson & Simpson

November 27, 2023

This Management's Discussion and Analysis (MD&A) of the financial activities of the Los Angeles Fire and Police Pension System (the System or LAFPP) is an overview of its fiscal operations for the year ended June 30, 2023. Readers are encouraged to consider the information presented here in conjunction with the Financial Statements and the Notes to the Financial Statements. Amounts contained in this discussion have been rounded to facilitate readability.

FINANCIAL HIGHLIGHTS

- Net position at the close of the fiscal year ended June 30, 2023, was \$26.44 billion and \$2.97 billion for the Pension Plan and Health Subsidy Plan, respectively. All of the net position was available to meet the System's obligations to members and their beneficiaries.
- Net position increased by \$1.18 billion, or 4.7%, and increased by \$244.69 million, or 9.0%, for the Pension Plan and Health Subsidy Plan, respectively.
- As of June 30, 2023, the date of the most recent funding actuarial valuations, the funding ratios of the Pension Plan and Health Subsidy Plan were 99.5% and 77.7%, respectively.
- Additions to the Pension Plan's net position increased by \$3.89 billion or 291.1% from \$(1.34) billion to \$2.55 billion, due primarily to the net appreciation in the fair value of investments in fiscal year 2023 relative to fiscal year 2022.
- Deductions from the Pension Plan's net position increased by \$108.58 million, or 8.6%, over fiscal year 2022 from \$1.27 billion to \$1.38 billion in fiscal year 2023.
- Additions to the Health Subsidy Plan's net position increased by \$417.61 million, or 2542.5%, from \$(16.43) million to \$401.18 million, due to the net appreciation in the fair value of investments in fiscal year 2023 relative to fiscal year 2022. Effective July 1, 2022, employer contributions and other funding of the Health Subsidy Plan are accepted into the newly established 115 Trust fund.
- Deductions from the Health Subsidy Plan's net position increased by \$6.73 million, or 4.5%, over fiscal year 2022 from \$149.76 million to \$156.49 million in fiscal year 2023.
- The total pension liability for the Pension Plan at June 30, 2023, was \$26.80 billion, and the fiduciary net position was \$26.44 billion. Thus, the net pension liability for the Pension Plan was \$363.62 million, and the fiduciary net position as a percentage of the total pension liability was 98.64%
- The total Other Post-Employment Benefits (OPEB) liability for the Health Subsidy Plan at June 30, 2023, was \$3.82 billion, and the fiduciary net position was \$2.97 billion. Thus, the net OPEB liability for the Health Subsidy Plan was \$848.21 million, and the fiduciary net position as a percentage of the total OPEB liability was 77.77%.

OVERVIEW OF THE FINANCIAL STATEMENTS

The following discussion and analysis are intended to serve as an introduction to the financial statements of the System, which are:

- 1. Statements of Fiduciary Net Position
- 2. Statements of Changes in Fiduciary Net Position
- 3. Notes to the Financial Statements

The *Statements of Fiduciary Net Position* is a snapshot of account balances at year-end. It indicates the amount of assets available for payment to retirees, beneficiaries, and any current liabilities owed at year-end.

The *Statements of Changes in Fiduciary Net Position* reports additions to and deductions from the fiduciary net position during the year.

The above statements are being prepared on an accrual basis of accounting. Investment gains and losses are shown at trade date, and account balances are based on fair values recognizing both realized and unrealized gains and losses on investments.

Notes to the Financial Statements provide additional information essential to a full understanding of the data provided in the financial statements. These notes are presented on pages 17 to 56 of this report.

The *Required Supplementary Information* (RSI) section includes the following five schedules with respect to the Pension Plan and Health Subsidy Plan:

Pension Plan:

- Schedule of Changes in Net Pension Liability and Related Ratio
- Schedule of Employer Contributions
- Notes to Schedule of Employer Contributions
- Schedule of Investment Returns
- Schedule of Employer's Net Pension Liability

Health Subsidy Plan:

- Schedule of Changes in Net Other Postemployment Benefits Liability and Related Ratios
- Schedule of Employer Contributions
- Notes to Schedule of Employer Contributions
- Schedule of Investment Returns
- Schedule of Employer's Net Other Postemployment Benefits Liability

FINANCIAL ANALYSIS

Pension Plan

Fiduciary Net Position

A summary of the Pension Plan's net position and changes in net position is presented below:

Condensed Statement of Fiduciary Net Position
(\$ in Thousands)

	(\$ in 1 nousands)			
	2023	2022	Change	% Change
		As restated		
Cash	\$ 7,166	\$ 6,107	\$ 1,059	17.3%

Additions to Fiduciary Net Position

Additions needed to fund benefit payments are accumulated through employer and member contributions, and from income generated from the Plan's investing activities.

Contributions for fiscal year 2023 totaled \$633.76 million, a decrease of \$50.93 million, or 7.44%, over fiscal year 2022. The employer's contribution for fiscal year 2023 was \$481.82 million compared to \$535.45 million for fiscal year 2022. The decrease in employer's contributions was due to the decrease in

Pension Plan (Continued)

Changes in Fiduciary Net Position (Continued)

required contribution. The increase in member contributions was due to an overall increase in active member salaries.

Net investment income amounted to \$1.92 billion, an increase in net investment income of \$3.94 billion, or 195.0%, when compared with \$(2.02) billion from fiscal year 2022. Investment income increased in fiscal year 2023 due to the net appreciation in the fair value of investments in fiscal year 2023 relative to fiscal year 2022.

Deductions from Fiduciary Net Position

Costs associated with the Pension Plan include benefit payments to members, refunds of contributions due to termination and member death, and administrative expenses.

Deductions for the fiscal year ended June 30, 2023, totaled \$1.38 billion, an increase of \$108.58 million, or 8.6%, over fiscal year 2022. The increase was due primarily to the up to 7.4% cost of living adjustments made to eligible pensions and an increase in the number of service retirements and Deferred Retirement Option Plan (DROP) exits, compared to fiscal year 2022.

Additions to Fiduciary Net Position

Additions needed to fund benefit payments are accumulated through employer and member contributions, and from income generated from the Plan's investing activities.

Contributions for fiscal year 2022 totaled \$684.69 million, decreased by \$16.91 million, or 2.4%, over fiscal year 2021. The employer's contribution for fiscal year 2022 was \$535.45 million compared to \$543.82 million for fiscal year 2021. The decrease in employer's contributions was due to the decrease in required contribution. The decrease in members' contribution was due to a decline in the number of active members.

Net investment loss amounted to \$2.02 billion, a decrease in net investment income of \$8.99 billion, or 129.0%, when compared with \$6.97 billion from fiscal year 2021. Investment income decreased in fiscal year 2022 due to the net depreciation in the fair value of investments in fiscal year 2022 relative to fiscal year 2021.

Pension Plan (Continued)

Changes in Fiduciary Net Position (Continued)

Deductions from Fiduciary Net Position

Costs associated with the Pension Plan include benefit payments to members, refunds of contributions due to termination and member death, and administrative expenses.

Deductions for the fiscal year ended June 30, 2022, totaled \$1.27 billion, up by \$58.55 million, or 4.8%, over fiscal year 2021. The increase was due primarily to the increase in retiree benefit payments resulting from an increase in the number of service retirements and Deferred Retirement Option Plan (DROP) exits compared to fiscal year 2021.

Health Subsidy Plan

A summary of the Health Subsidy Plan's net position and changes in net position is presented below:

Net Position	\$ 2,966,815	\$ 2,722,122	\$ 244,693	9.0%

⁽¹⁾ Receivables and deferred inflows of resources were restated in the fiscal year 2022 as a result of GASB Statement No. 87-*Leases* implementation (see Note 2 for details).

Net position increased by \$244.69 million, or 9.0%, to \$2.97 billion from fiscal year 2022. Total assets increased in value by \$273.14 million, or 9.4%, when compared with the prior fiscal year 2022, attributable to appreciation of investments due to favorable market conditions.

Total Deductions	156,490	149,763	6,727	4.5%
Net Increase	244,692	(166,188)	410,880	247.2%
Net Position, Beginning of Year	2,722,123	2,888,310	(166,187)	-5.8%
Net Position, End of Year	\$ 2,966,815	\$ 2,722,122	\$ 244,693	9.0%

Additions to Fiduciary Net Position

Total additions to net position increased by \$417.61 million compared to fiscal year 2022. This is due primarily to the net appreciation in the fair value of investments which increased by \$424.32 million or 202.4% over fiscal year 2022. For fiscal year 2023, net investment income was \$401.18 million compared to \$(16.43) million in fiscal year 2022.

Deductions from Fiduciary Net Position

Deductions represent medical and dental insurance subsidies paid for pensioners and their beneficiaries and administrative expenses. Current year deductions were \$156.49 million, \$6.73 million or 4.5% more than the total deductions of fiscal year 2022. This is due primarily to an increase in the number of pensioners receiving subsidy benefits and the increase in the maximum retiree health subsidy in fiscal year 2023.

Administrative Expenses	2,296	2,141	155	7.2%			
Total Deductions	149,763	153,996	(4,233)	-2.7%			
Net Increase	(166,188)	744,862	(911,050)	-122.3%			
Net Position, Beginning of Year	2,888,310	2,143,448	744,862	34.8%			
Net Position, End of Year	\$ 2,722,122	\$ 2,888,310	\$ (166,188)	-5.8%			

Additions to Fiduciary Net Position

Total additions to net position decreased by \$915.28 million compared to fiscal year 2021. This is due primarily to the net depreciation in the fair value of investments which decreased by \$907.97 million or 130.0% over fiscal year 2021. For fiscal year 2022, net investment loss was \$(209.60) million compared to \$698.37 million in fiscal year 2021.

Deductions from Fiduciary Net Position

Deductions represent medical and dental insurance subsidies paid for pensioners and their beneficiaries and administrative expenses. Current year deductions were \$149.76 million, \$4.23 million or 2.7% less than the total deductions of fiscal year 2021. This is due primarily to a decrease in premiums for some of the most popular health insurance options in fiscal year 2022 and a decrease in the Medicare health subsidy as of January 1, 2022.

REQUEST FOR INFORMATION

This financial report is designed to provide the Board of Fire and Police Pension Commissioners, members, investment managers, and creditors with a general overview of LAFPP's finances. NOTE 1 – <u>DESCRIPTION OF THE PLANS</u>

The Los Angeles Fire and Police Pension System (the System or LAFPP) was established by the City of Los Angeles (the City) in 1899 and operates under the provisions of the City Charter and Administrative Code. The System is a single employer public employee retirement system whose main function is to provide retirement benefits to the safety members employed by the City.

The System is administered by a Board of Fire and Police Pension Commissioners (Board) composed of five commissioners who are appointed by the Mayor, two commissioners elected by Police members of the System and two commissioners elected by Fire members of the System. Under the provisions of the City Charter and Administrative Code and the State Constitution, the Board has the responsibility to administer the Pension Plan and Health Subsidy Plan.

Pension Plan

The System's Pension Plan is a defined benefit single-employer pension plan covering all full-time active sworn firefighters, police officers, and certain Harbor Port Police and Airport police officers of the City of Los Angeles. The System also covers those certified paramedics and civilian ambulance employees who transferred from the Los Angeles City Employees' Retirement System (LACERS) during the year ended June 30, 1983 or have since been hired. The System is composed of six tiers. Benefits are based on the member's pension tier, pension salary base, and years of service. In addition, the System provides for disability benefits under certain conditions and benefits to eligible survivors.

Tier 1 includes members hired on or before January 28, 1967. Tier 2 includes members hired from January 29, 1967 through December 7, 1980, and those Tier 1 members who transferred to Tier 2 during the enrollment period of January 29, 1967 to January 29, 1968. Tier 3 includes members hired from December 8, 1980 through June 30, 1997, and those Tier 4 members hired during the period of July 1, 1997 through December 31, 1997 who elected to transfer to Tier 3 by the enrollment deadline of August 6, 1999. Tier 4 includes members hired from July 1, 1997 through December 31, 2001, and those Tier 3 members who elected to transfer to Tier 4 by the enrollment deadline of June 30, 1998. Tier 5 includes members hired from January 1, 2002 through June 30, 2011, and those Active members of Tiers 2, 3, and 4 who elected to transfer to Tier 5 during the enrollment period of January 2, 2002 through December 31, 2002. Tier 5 was the tier for all Harbor Port Police officers hired on or after January 8, 2006 through June 30, 2011. Harbor Port Police officers hired before January 8, 2006, who were members of LACERS, were allowed to transfer to Tier 5 during the enrollment period of January 8, 2006 to January 5, 2007.

Tier 6 was established for all firefighters, police and Harbor Port Police officers hired on or after July 1, 2011. Tier 6 includes sworn officers from the Department of General Services who transferred to Los Angeles Police Department (LAPD) classifications and elected to opt out of LACERS by the December 12, 2014 deadline. Effective January 7, 2018, Tier 6 also includes all new Airport police officers, as well as any Airport police officers hired prior to January 7, 2018 who elected to transfer to Tier 6 from LACERS at their own expense.

NOTE 1 – DESCRIPTION OF THE PLANS (Continued)

Pension Plan (Continued)

Tier 1 members hired prior to January 17, 1927, with 20 years of service are entitled to annual pension benefits equal to 50%, increasing for each year of service over 20 years, to a maximum of 66-2/3% of the average monthly rate of salary assigned to the ranks or positions held by the member during the three years immediately preceding the date of retirement. Tier 1 members hired on or after January 17, 1927, with 20 or more years of service are entitled to annual pension benefits equal to 40%, increasing for each year of service over 20 years, to a maximum of 66-2/3% of the average monthly rate of salary assigned to the ranks or positions held by the member during the three years immediately preceding the date of retirement. Tier 1 has no minimum age requirement and provides for unlimited post-employment cost-of-living adjustments (COLA) based on the Consumer Price Index (CPI). Tier 1 members who were active as of July 1, 1982, and who terminated their employment after July 1, 1982, were entitled to a refund of contributions plus Board-approved interest if they did not qualify for a pension or if they waived their pension entitlements.

Tier 2 members with 20 or more years of service are entitled to annual pension benefits equal to 40% of their final compensation, increasing for each year of service over 20 years, to a maximum of 70% for 30 years. Tier 2 has no minimum age requirement and provides for unlimited post-employment COLAs based on the CPI. Tier 2 members who were active as of July 1, 1982, and who terminate their employment after July 1, 1982, are entitled to a refund of contributions plus Board-approved interest if they do not qualify for a pension or if they waive their pension entitlements.

Tier 3 members must be at least age 50 with 10 or more years of service to be entitled to a service pension. Annual pension benefits are equal to 20% of the monthly average of a member's salary during any 12 consecutive months of service as a Plan member (one-year average compensation), increasing for each year of service over 10 years, to a maximum of 70% for 30 years. Tier 3 provides for post-employment COLAs based on the CPI to a maximum of 3% per year. The Los Angeles City Council (City Council) may grant an ad-hoc COLA no more than every three years, subject to certain conditions. Members who terminate their employment are entitled to a refund of contributions plus Board-approved interest if they do not qualify for a pension or if they waive their pension entitlements.

Tier 4 members must have at least 20 years of service to be entitled to a service pension. There is no minimum age requirement. Annual pension benefits are equal to 40% of their one-year average compensation, increasing for each year of service over 20 years, to a maximum of 70% for 30 years. Tier 4 provides for post-employment COLAs based on the CPI to a maximum of 3% per year. The City Council may grant an ad-hoc COLA no more than every three years, subject to certain conditions. Members who terminate their employment before they are eligible for pension benefits do not receive a refund of contributions.

Tier 5 members must be at least age 50 with 20 or more years of service to be entitled to a service pension. Annual pension benefits are equal to 50% of their one-year average compensation, increasing for each year of service over 20 years, to a maximum of 90% for 33 years. Tier 5 provides for post-employment COLAs based on the CPI to a maximum of 3% per year. However, any increase in the CPI greater than 3% per year is placed into a COLA bank for use in years in which the increase in CPI is less than 3%. The City Council may also grant an ad-hoc COLA no more than every three years, subject to certain conditions. Members who terminate their employment are entitled to a refund of contributions plus Board-approved interest if they do not qualify for a pension or if they waive their pension entitlements.

NOTE 1 – DESCRIPTION OF THE PLANS (Continued)

Pension Plan (Continued)

Tier 6 members must be at least age 50 with 20 or more years of service to be entitled to a service pension. Annual pension benefits are equal to 40% of their two-year average compensation, increasing for each year of service over 20 years, to a maximum of 90% for 33 years. Tier 6 provides for post-employment COLAs based on the CPI to a maximum of 3% per year. However, any increase in the CPI greater than 3% per year is placed into a COLA bank for use in years in which the increase in CPI is less than 3%. The City Council may also grant an ad-hoc COLA no more than every three years, subject to certain conditions. Members who terminate their employment are entitled to a refund of contributions plus Board-approved interest if they do not qualify for a pension or if they waive their pension entitlements.

Health Subsidy Plan

Members of the System are entitled to post-employment health subsidy benefits under Sections 1330, 1428, 1518, 1618, and 1718 of the City Charter; Section 4.2018 of the Administrative Code; and related ordinances. Health subsidy benefits are available to members and their covered dependents (e.g., spouses/domestic partners and/or children) on disability and service retirement. Effective January 1, 2000, qualified surviving spouses/domestic partners are eligible for health subsidy benefits. Members who retire from the System with at least 10 years of service are eligible for health subsidy benefits. For retirement effective dates prior to July 1, 1998, regular benefits begin at age 60. For retirement effective dates on or after July 1, 1998, regular benefits begin at age 55. Tier 6 members who retire on a service-connected disability pension are eligible for a minimum health subsidy at age 55 if they have fewer than 10 years of service.

Administrative Code Section 4.1154 (e) provides that, on an annual basis beginning in 2006, the Board is authorized to make discretionary changes to the maximum monthly subsidy, so long as no increase exceeds the lesser of a 7% increase or the actuarial assumed rate for medical inflation for pre-65 health benefits established by the Board for the applicable fiscal year. The maximum monthly subsidy for fiscal years 2023 and 2022 was \$2,046.97 and \$1,958.82, respectively. The System also reimburses the basic Medicare Part B premium for any pensioner enrolled in Medicare Parts A and B, and eligible to receive a subsidy.

The System began pre-funding the health subsidy benefits effective with the 1989-1990 plan year. Full funding was phased in over four years.

Effective July 1, 2008, actual employer contributions and benefit payments relating to health subsidy benefits are separately accounted for to comply with Internal Revenue Code Section 401(h).

On January 11, 2022, the City Council passed Ordinance No. 187351 to amend Chapter 11.5 of Division 4 of the Los Angeles Administrative Code to establish the Los Angeles Fire and Police Pensions Retiree Health Care Fund (LAFPP Health Care Fund) for the sole purpose of funding retiree health care benefits for eligible retirees and beneficiaries of the System.

The City and the Board of Los Angeles Fire and Police Pensions entered into a trust agreement, providing the LAFPP Health Care Fund as an alternative funding mechanism to the pre-existing LAFPP Health Care Coverage Account (401(h) account). This measure was aimed to ensure the long-term viability and sustainability of retiree health care benefits for Fire and Police Pension Plans.

NOTE 1 – DESCRIPTION OF THE PLANS (Continued)

Health Subsidy Plan (Continued)

The LAFPP Health Care Fund is intended to qualify for federal tax exemption under Section 115 of the Internal Revenue Code. Effective July 1, 2022, the LAFPP Health Care Fund began receiving contributions from the City designated for retiree health benefits. The existing 401(h) account continues to operate, disbursing funds for health insurance and other benefits provided under Chapter 11.5 of Division 4 of the Los Angeles Administrative Code, until it is fully depleted.

Health Insurance Premium Reimbursement (HIPR) Program

Effective January 1, 2001, members of the System are entitled to post-employment health insurance premium reimbursements under Section 4.1163 of the Administrative Code.

Eligibility requirements for pensioners and qualified surviving spouses/domestic partners are as follows: The pensioner (whether living or deceased) must meet minimum age and service requirements for a health subsidy and may not be enrolled in a Board-approved HMO health plan. Prior to April 6, 2017, the pensioner or qualified surviving spouse/domestic partner were required to reside either outside California or in the State of California but not within a Board-approved health plan zip code service area to participate in the HIPR program. Effective April 6, 2017, this residency restriction was removed allowing eligible pensioners and qualified surviving spouses/domestic partners to reside anywhere and still be eligible to participate in this program.

The reimbursement paid is a percentage of the maximum health subsidy. The System also reimburses the basic Medicare Part B premium for any pensioner or qualified surviving spouse/domestic partner eligible to receive a subsidy and enrolled in Medicare Parts A and B.

Dental Subsidy Plan

Members who retire from the System with at least 10 years of service, are age 55 years or older, and are enrolled in a Board-approved dental plan, are eligible for dental subsidy benefits. Surviving spouses, domestic partners, and dependents are not covered by this subsidy.

The benefit paid is a percentage of a maximum subsidy for dental insurance based on the lower of the dental subsidy in effect for LACERS or active Safety Members. The maximum monthly subsidy was \$43.81 and \$44.60 for calendar years 2023 and 2022, respectively. In determining the dental subsidy, members receive 4% for each whole year of service, up to 100% of the maximum.

Deferred Retirement Option Plan

Effective May 1, 2002, members of the System have the option to enroll in the Deferred Retirement Option Plan (DROP) under Section 4.2100 of the Administrative Code. Members of Tiers 2 and 4 who have at least 25 years of service, and members of Tiers 3, 5, and 6 who have at least 25 years of service and who are at least age 50 are eligible for DROP.

NOTE 1 – DESCRIPTION OF THE PLANS (Continued)

Deferred Retirement Option Plan (Continued)

Members who enroll continue to work and receive their active salary for up to five years. Enrolled members continue to contribute to the System until they have completed the maximum number of years required for their tier but cease to earn additional retirement service and salary credits. Monthly pension benefits that would have been paid to enrolled members are credited to their DROP accounts. DROP account balances earn interest at an annual rate of 5%.

Effective February 1, 2019, for members who enroll on or after this date, participation in DROP will be suspended for any calendar month in which a participant does not spend at least 112 hours on "active duty" status. However, if a participant sustains a serious injury on duty and is admitted to the hospital for at least three consecutive days as a result of the injury, their participation will not be suspended during the first 12 calendar months following the date of injury. If a member's DROP participation is suspended, he/she is eligible to participate in DROP for a maximum of 30 additional months beyond his/her original five-year participation period. The participation period can only be extended for as many months as the member's participation was suspended, and no interest is credited to the member's DROP account following the initial five-year participation period.

Once the DROP participation period ends, enrolled members must terminate active employment. They then receive the proceeds from their DROP account and a monthly benefit based on their service and salary at the beginning date of their DROP participation, plus applicable COLAs.

At June 30, 2023 and 2022, 1,496 and 1,415 pensioners, respectively, were enrolled in the DROP program, with total estimated values of the DROP accounts of approximately \$361,085,473 and \$386,872,708, respectively.

Two Percent Opt-In

On July 15, 2011, the City Council adopted an ordinance to permanently freeze the retiree health subsidies and reimbursements for members of the System who retired or entered DROP on or after July 15, 2011. This ordinance added language to the Los Angeles Administrative Code to freeze the maximum monthly non-Medicare subsidy at the July 1, 2011, rate of \$1,097.41 per month, and freeze the maximum monthly Medicare subsidy at the January 1, 2011, rate of \$480.41 per month. However, the ordinance also provided that members may make an irrevocable election to contribute towards vesting increases in the maximum health subsidy, as allowed by an applicable Memorandum of Understanding.

Members who opted-in to make the additional two-percent pension contributions are entitled to the current maximum health subsidy benefit and all future subsidy increases once they retire and become eligible to receive a subsidy. The opt-in period for the majority of the members began August 15, 2011, and closed September 29, 2011.

SINCE THE PENSION AND HEALTH SUBSIDY PLANS INCLUDE DETAILED PROVISIONS, MEMBERS SHOULD REFER TO THE LEGAL TEXT OF THE CITY CHARTER AND LOS ANGELES CITY ADMINISTRATIVE CODE FOR MORE COMPLETE INFORMATION.

NOTE 1 – <u>DESCRIPTION OF THE PLANS</u> (Continued)

Pension Plan Membership

The components of the System's Pension Plan membership at June 30, 2023 and 2022, are as follows:

	2023	2022
Active Nonvested:		
Tier 1	-	-
Tier 2	-	-
Tier 3	-	-
Tier 4	2	6
Tier 5	3,493	4,062
Tier 6	4,862	4,402
	8,357	8,470
Active Vested:		
Tier 1	-	-
Tier 2	3	4
Tier 3	390	472
Tier 4	154	168
Tier 5	3,661	3,653
Tier 6	6	4
	4,214	4,301
Pensioners and Beneficiaries:		
Tier 1	171	190
Tier 2	6,052	6,334
Tier 3	1,000	910
Tier 4	404	389
Tier 5	6,497	5,995
Tier 6	7	3
	14,131	13,821
Vested Terminated

Tier 5	250	257
Tier 6	503	433
	776	723
	27,478	27,315

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due, and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the System.

Financial Reporting

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, as outlined by the Governmental Accounting Standards Board (GASB). The accompanying financial statements include information from the prior year summarized for comparative purposes only. Such information does not include sufficient detail to constitute a presentation in accordance with U.S. generally accepted accounting principles (GAAP). Accordingly, such information should be read in conjunction with the System's financial statements for the fiscal year ended June 30, 2022, from which such information was derived.

Restatement of Prior Period Financial Statements for Fiscal Year ended June 30, 2022

In the subsequent fiscal year, the System formalized two lease agreements in November 2022 and January 2023 with tenants previously engaged on a month-to-month basis. The commencement dates of these leases were retroactive, beginning in April and May of 2022, respectively.

To align with GASB Statement No. 87 requirements, the System has retroactively adjusted and restated the financial statements for the fiscal year ended June 30, 2022. This restatement increased the Fiduciary Net Position as of that date by a total of \$1,970.

Investments and Method Used to Value Investments

Temporary investments, consisting primarily of bankers' acceptances, commercial paper, certificates of deposit, pooled temporary investments, U.S. Treasury bills, and repurchase agreements along with bonds, stocks, and alternative investments, are reported at fair value. Pooled temporary investments represent funds invested in a custodian-managed discretionary short-term investment fund. This fund invests in a variety of U.S. and foreign securities rated A1 or P-1 by Moody's Investors Service and Standard & Poor's, respectively, or equivalent quality as determined by the custodian.

Investments denominated in foreign currencies are translated to the U.S. dollar at the rate of exchange in effect at the System's year-end. Resulting gains or losses are included in the System's Statements of Changes in Fiduciary Net Position.

The category of alternative investments includes private equity. Private equity investments are composed predominantly of limited partnerships that invest mainly in privately-owned companies.

Investment transactions are accounted for on the date the securities are purchased or sold (trade date). Unsettled investment trades as of the fiscal year-end are reported in the financial statements on the accrual basis of accounting. The corresponding proceeds due from sales are reported on the Statements of Fiduciary Net Position as receivables and labeled due from brokers and amounts payable for purchases are reported as

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Investments and Method Used to Value Investments (Continued)</u>

liabilities and labeled due to brokers. Dividend income is recorded on ex-dividend date and interest income is accrued as earned.

Investments are carried at fair value. The fair value of securities investments is generally based on published market prices or quotations from major investment dealers. Investments for which market quotations are not readily available are valued at their estimated fair value. The fair values of private equity investments are estimated by the investment managers based on consideration of various factors, including current net position valuations of underlying investments in limited partnerships, the financial statements of investee limited partnerships prepared in accordance with accounting principles generally accepted in the United States of America, and other financial information provided by the investment managers of investee limited partnerships.

Real estate investments are recorded in the financial statements under the equity method and are carried at fair value as determined by a periodic external appraisal. The fair values of real estate investment funds are provided by the individual real estate fund managers with periodic external valuations.

Cash

Cash consists primarily of an undivided interest in the cash held by the City Treasurer. These monies are pooled with the monies of other City agencies and invested by the City Treasurer's office.

Capital Assets

Capital assets include land, building, improvements, computer/software, furniture and fixtures that are used in operation. Assets with an individual cost of at least \$5,000 and an estimated useful life of more than one year are capitalized. Capital assets are valued at acquisition cost plus the cost of improvements. Depreciation is computed using the straight-line method over the estimated useful lives of the building and improvements (20-year), computer/software (10-year) and furniture and fixtures (5-year). The System acquired the Neptune Building in fiscal year 2013 and occupied it as the headquarters in fiscal year 2016. Recorded values of land and building were assigned based on a ratio obtained from the November 2016 independent appraisal report.

The System implemented GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs), as of July 1, 2022. Under this guidance, the SBITAs are accounted for as intangible right-to-use subscription assets, and the associated subscription expenses are recognized over the subscription term.

Mortgage Payable

Mortgage payable is stated at fair value. The fair value of mortgage loans payable is presented at the amount at which the liability could be transferred to a market participant, exclusive of direct transaction costs such as prepayment penalties. The fair value of mortgage loans payable have been determined by giving consideration to one or more of the following criteria as appropriate: (i) interest rates and/or interest rate spreads for loans of comparable quality and maturity, (ii) the value of the underlying collateral, (iii) the credit risk of the borrower based on key elements of the real estate investment's valuation, (iv) market

NOTE 2 – <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

Mortgage Payable (Continued)

based loan-to-value and debt-service-coverage ratios relative to each mortgage loan payable valuation, and (v) key terms such as assumability, recourse provisions and guaranties. These inputs are considered within a discounted cash flow model used to determine the estimated fair value of mortgage loans payable.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting years. Actual results could differ from those estimates.

NOTE 3 – <u>NEW ACCOUNTING STANDARDS</u>

Implementation of the following GASB statements effective beginning fiscal year 2023.

In May 2020, the GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*, effective for fiscal years beginning after June 15, 2022. This Statement defines the subscription-based information technology arrangements (SBITAs) and requires the government to recognize a right-to-use subscription asset and a corresponding subscription liability when the SBITAs meet the requirements. The System implemented the requirement of this statement for the fiscal year ended June 30, 2023.

In April 2022, the GASB issued Statement No. 99, *Omnibus* 2022, effective upon issuance, except for the requirements related to leases, PPP's, and SBITAs that are effective for fiscal years beginning after June 15, 2022 and for the requirements related to financial guarantees and classification and reporting of derivative instruments that are effective for fiscal years beginning after June 15, 2023. The objective of this Statement is to improve the consistency of authoritative literature and enhance the comparability in accounting and financial reporting. The variety of topics covered include the requirements related to the extension of the use of LIBOR, disclosures of nonmonetary transactions, pledges of future revenues by the pledging governments, clarification of provisions in Statement No. 34, and terminology used in Statement No. 53 and 63. There are no applicable reporting requirements for the System related to this Statement.

Recent GASB Pronouncements for Future Adoption

In June 2022, the GASB issued Statement No. 100, *Accounting Changes and Error Corrections*. This is an amendment of GASB Statement No. 62. This new statement defines accounting changes as changes in accounting principles, changes in accounting estimates, and change to or within the accounting and financial reporting for each type of accounting changes and error corrections in previously issued financial statements. The requirements of this Statement are effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023.

In June 2022, the GASB issued Statement No. 101, *Compensated absences*. This statement requires that liabilities for compensated absences be recognized for leave that has not been used and leave that has been used but not yet paid in cash or settled through noncash means. This Statement also establishes guidance for measuring a liability for leave that has not been used, generally using an employee's pay rate as of the date of

NOTE 3 – NEW ACCOUNTING STANDARDS (Continued)

the financial statements. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023.

In June 2023, the GASB issued Implementation Guide No. 2023-1, Implementation Guidance Update -2023. This Implementation Guide amends Implementation Guide No. 2019-3 Leases and Implementation Guide No. 2021-1, Implementation Guidance Update -2021. The requirements of this Implementation Guide are effective for fiscal years beginning after June 15, 2023.

NOTE 4 – FUNDING POLICY AND CONTRIBUTION INFORMATION

As a condition of participation, members are required to contribute a percentage of their salaries to the System. Tier 1 members were required by the City Charter to contribute 6% of salary. The System's actuary recommended that Tier 2 members contribute 1% in addition to the 6% rate provided in the City Charter, for a total of 7% of salary. Tiers 3 and 4 members are required to contribute 8% of salary. Tier 5 members are required to contribute 9% of salary. However, the City shall pay 1% of the Tier 5 required contribution rate contingent on the System remaining at least 100% actuarially funded for pension benefits. Since July 1, 2006, Tier 5 members have been required to contribute 9% of salary because the System has remained less than 100% actuarially funded for pension benefits as determined by the System's actuary. Tier 6 members are required to contribute 9% of salary for regular pension contributions. Tier 6 members are also required to make an additional pension contribution of 2% of salary to support the City's ability to fund retiree health benefits. Airport police officers who transferred to Tier 6 from LACERS are required to contribute to the System at their same LACERS contribution rates until they retire.

The City Charter specifies that the City will make the following contributions each year:

- A. An amount equal to the City's share of defined entry age normal costs.
- B. For members of Tiers 1 and 2, a dollar amount or percentage necessary to amortize the "unfunded liability" of the System over a 70-year period, beginning with the fiscal year commencing July 1, 1967. Under Tiers 3, 4, and 5, any "unfunded liability" resulting from plan amendments shall be amortized over a 25-year period, and actuarial experience gains and losses shall be amortized over a 20-year period. For Tier 6, the unfunded liabilities shall be funded in accordance with the actuarial funding method adopted by the Board upon the advice of the consulting actuary. Charter Amendment G, effective April 8, 2011, now provides that with the advice of the consulting actuary, the Board shall establish amortization policies for unfunded actuarial accrued liabilities and surpluses for all Tiers.
- C. An amount to provide for the Health Subsidy Plan.

Accordingly, the City's contributions as determined by the System's actuary for items A, B, and C above, net of early payment discount, for the fiscal years ended June 30, 2023 and 2022, were as follows (\$ in thousands):

NOTE 4 – FUNDING POLICY AND CONTRIBUTION INFORMATION (Continued)

Fiscal Year Ended June 30, 2023

	Fire and Police						Harbor P	ort Police	LAWA
	Tier 1	Tier 2	Tier 3	Tier 4	Tier 5	Tier 6	Tier 5	Tier 6	Tier 6

During fiscal year 2023, total contributions of \$668.24 million from the employer and \$151.93 million from the members were made, with respect to the Pension Plan and Health Subsidy Plan, in accordance with actuarially determined contribution requirements determined through an actuarial valuation performed at June 30, 2021. For the Pension Plan, fiscal year 2023 employer contributions included \$323.76 million for entry age normal cost, \$137.96 million for the unfunded actuarial accrued liability annual amount, and \$20.10 million for pension administrative expense. For the Health Subsidy Plan, fiscal year 2023 employer contributions consisted of \$76.50 million for entry age normal cost, \$108.15 million for the unfunded actuarial accrued liability annual amount, and \$1.77 million for health administrative expense.

Fiscal Year Ended June 30, 2022

	Fire and Police					Harbor P	ort Police	LAWA	
	Tier 1	Tier 2	Tier 3	Tier 4	Tier 5	Tier 6	Tier 5	Tier 6	Tier 6

NOTE 4 – FUNDING POLICY AND CONTRIBUTION INFORMATION (Continued)

During fiscal year 2022, total contributions of \$728.59 million from the employer and \$149.24 million from the members were made, with respect to the Pension Plan and Health Subsidy Plan, in accordance with actuarially determined contribution requirements determined through an actuarial valuation performed on June 30, 2020. For the Pension Plan, fiscal year 2022 employer contributions included \$321.29 million for entry age normal cost, \$194.18 million for the unfunded actuarial accrued liability annual amount, and \$19.98 million for pension administrative expense. For the Health Subsidy Plan, fiscal year 2022 employer contributions consisted of \$77.31 million for entry age normal cost, \$114.07 million for the unfunded actuarial accrued liability annual amount, and \$1.76 million for health administrative expense.

NOTE 5 – <u>NET PENSION LIABILITY</u>

The components of the System's net pension liability (NPL) at June 30, 2023 and 2022, were as follows:

	2023	2022
Total Pension Liability Less: Fiduciary Net Position	\$ 26,800,919,50 26,437,299,50	
Net Pension Liability	\$ 363,619,94	\$ 648,757,838
Fiduciary Net Position as a Percentage of the Total Pension Liability	98.64%	97.50%

The NPL was measured as of June 30, 2023 and June 30, 2022 and determined based upon plan assets as of each measurement date and upon rolling forward to each measurement date the total pension liability (TPL) from the actuarial valuation as of June 30, 2022 and 2021, respectively.

Actuarial Assumptions

The TPL as of June 30, 2023, was determined by the actuarial valuation as of June 30, 2022. The actuarial assumptions used in the June 30, 2023 measurement were based on the July 1, 2019 through June 30, 2022 Experience Study Report dated May 10, 2023, and were applied to all periods included in the measurement as of June 30, 2023:

Inflation Rate	2.50%
Projected Salary Increase	Ranges from 3.90% to 12.00% based on years of service, including inflation.
Investment Return Rate	7.00%, including inflation but net of pension plan investment expenses.
Real Across-the-Board Salary Increase	0.50%
Cost of Living Adjustments (COLAs)	2.75% of Tiers 1 - 6 retirement income.
Mortality	Healthy: Pub-2010 Safety Healthy Retiree Amount-Weighted Above-Median Mortality Table increased by 5% for males and unadjusted for females, projected generationally with the two-dimensional mortality

improvement scale MP-2021.

NOTE 5 – NET PENSION LIABILITY (Continued)

Actuarial Assumptions (Continued)

Disabled:

Pub-2010 Safety Disabled Retiree Amount-Weighted Mortality Table projected generationally with the twodimensional mortality improvement scale MP-2021.

Beneficiary:

Not in Pay Status as of Valuation: Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Table increased by 5% for males and females, projected generationally with the twodimensional mortality improvement scale MP-2021.

In Pay Status as of Valuation: Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Table increased by 5% for males and 10% for females, projected generationally with the twodimensional mortality improvement scale MP-2021.

The TPL as of June 30, 2022, was determined by the actuarial valuation as of June 30, 2021. The actuarial assumptions used in the June 30, 2022 measurement were based on the July 1, 2016 through June 30, 2019 Experience Study Report dated May 13, 2020, and were applied to all periods included in the measurement as of June 30, 2022:

Inflation Rate 2.75%

Ranges from 4.15% to 12.25% based on years of Projected Salary Increase

service, including inflation.

Investment Return Rate 7.00%, including inflation but net of pension plan

investment expenses.

Real Across-the-Board Salary Increase 0.50%

Cost of Living Adjustments (COLAs) 2.75% of Tiers 1 - 6 retirement income.

Mortality Healthy:

> Pub-2010 Safety Healthy Retiree Amount-Weighted Above-Median Mortality Table multiplied by 105% for males and 100% for females, projected generationally with the two-dimensional mortality

improvement scale MP-2019.

Disabled:

Pub-2010 Safety Disabled Retiree Amount-Weighted Mortality Table projected generationally with the twodimensional mortality improvement scale MP-2019.

Beneficiary:

Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Table multiplied by 105%, projected generationally with the two-dimensional

mortality improvement scale MP-2019.

NOTE 5 – <u>NET PENSION LIABILITY</u> (Continued)

Investment Return Rate

The long-term expected rate of return on Pension Plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of inflation and, beginning with June 30, 2023, any applicable investment management expenses) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and deducting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each measurement class, after deducting inflation, as shown in the following table. These values for 2023 are after deducting applicable investment management expenses while the values for 2022 are before reduction of all investment expenses including manager's fees. These values were used in the derivation of the long-term expected investment rate of return assumption for June 30, 2023 and 2022. This information may change every three years based on the actuarial experience study.

	Target Alk Percent		Long Term Expected Re Rate of Return	
Asset Class	2023	2022	2023	2022
Large Cap U.S. Equity	23.00%	23.00%	6.00%	5.40%
Small Cap U.S. Equity	6.00%	6.00%	6.65%	6.20%
Developed International Equity	16.00%	16.00%	7.01%	6.54%
Emerging Markets Equity	5.00%	5.00%	8.80%	8.78%
U.S. Core Fixed Income	9.90%	13.00%	1.97%	1.07%
High Yield Bonds	2.75%	3.00%	4.63%	3.31%
Global Credit	2.75%	N/A	0.89%	N/A
Real Estate	7.00%	7.00%	3.86%	4.65%
Treasury Inflation Protected Securities (TIPS)	4.40%	4.00%	1.77%	0.62%
Commodities	1.00%	5.00%	4.21%	3.05%
Cash	1.00%	1.00%	0.63%	0.01%
Private Credit	2.00%	N/A	6.48%	N/A
Unconstrained Fixed Income	2.20%	2.00%	2.50%	1.37%
Private Equity	14.00%	12.00%	9.84%	8.25%
Real Estate Investment Trusts (REITS)	3.00%	3.00%	5.25%	4.40%
Total Portfolio	100.00%	100.00%	5.80%	4.99%

Discount Rate

The discount rate used to measure the TPL was 7.00% as of June 30, 2023 and June 30, 2022. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current contribution rates for each tier and that employer contributions will be made at rates equal to the actuarially determined contribution rates for each tier. For this purpose, only employer contributions that are intended to fund benefits for current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on Pension Plan investments was applied to all periods of projected benefit payments to determine the TPL as of June 30, 2023 and 2022.

NOTE 5 – <u>NET PENSION LIABILITY</u> (Continued)

Sensitivity Analysis

The following presents the NPL of the System as of June 30, 2023 and 2022, calculated using the discount rate of 7.00% for 2023 and 2022, as well as what the System's NPL would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease		Current Discount		1% Increase
	(6.00%)	_	Rate (7.00%)	_	(8.00%)
NPL as of June 30, 2023	\$ 4,021,274,936	\$	363,619,942	\$	(2,615,987,109)
NPL as of June 30, 2022	\$ 4,269,849,343	\$	648,757,838	\$	(2,290,019,010)

NOTE 6 – NET OTHER POST-EMPLOYMENT BENEFITS LIABILITY

The components of the System's net Other Postemployment Benefits (OPEB) liability at June 30, 2023 and 2022, were as follows:

	2023	2022
Total OPEB Liability Less: Fiduciary Net Position	\$ 3,815,026,871 2,966,815,106	\$ 3,649,332,287 2,722,122,493
Net OPEB Liability	\$ 848,211,765	\$ 927,209,794
Fiduciary Net Position as a Percentage of the Total OPEB Liability	77.77%	74.59%

The Net OPEB Liability (NOL) was measured as of June 30, 2023 and June 30, 2022. The Health Subsidy's Net Position was valued as of the measurement date, while the Total OPEB Liability (TOL) was determined based upon the results of the funding actuarial valuations as of June 30, 2023 and 2022.

Actuarial Assumptions

The TOL as of June 30, 2023, was determined by the actuarial valuation as of June 30, 2023. The actuarial assumptions were based on the results of an experience study for the period from July 1, 2019 through June 30, 2022 and the health assumptions letter dated August 29, 2023. They are the same as the assumptions used in the June 30, 2023 funding actuarial valuation.

NOTE 6 – NET OTHER POST-EMPLOYMENT BENEFITS LIABILITY (Continued)

Actuarial Assumptions (Continued)

The following actuarial assumptions were applied to all periods included in the measurements as of June 30, 2023:

2.50% Inflation Rate

Ranges from 3.90% to 12.00% based on years of service, Projected Salary Increase

including inflation

Investment Return Rate 7.00%, including inflation but net of investment expenses.

Real Across-the-Board Salary Increase 0.50%

Cost of Living Adjustments

(COLAs)

2.75% of Tiers 1-6 retirement income.

Mortality Healthy:

> Pub-2010 Safety Healthy Retiree Headcount-Weighted Above-Median Mortality Table increased by 5% for males and unadjusted for females, projected generationally with the two-dimensional mortality improvement scale MP-

2021.

Disabled:

Pub-2010 Safety Disabled Retiree Headcount-Weighted Mortality Table projected generationally with the twodimensional mortality improvement scale MP-2021.

Beneficiary:

Not in Pay Status as of Valuation: Pub-2010 General Healthy Retiree Headcount-Weighted Above-Median Mortality Table increased by 5% for males and females, projected generationally with the two-dimensional

mortality improvement scale MP-2021.

In Pay Status as of Valuation: Pub-2010 General Healthy Retiree Headcount-Weighted Above-Median Mortality Table increased by 5% for males and 10% for females, projected generationally with the two-dimensional

mortality improvement scale MP-2021.

The TOL as of June 30, 2022, was determined by the actuarial valuation as of June 30, 2022. The actuarial assumptions were based on the results of an experience study for the period from July 1, 2016 through June 30, 2019 with the exception of the mortality assumption where the Board adopted the updated Pub-2010 mortality tables proposed in a separate letter dated December 12, 2019 and the health assumptions letter dated September 8, 2022. They are the same as the assumptions used in the June 30, 2022 funding actuarial valuation.

NOTE 6 – NET OTHER POST-EMPLOYMENT BENEFITS LIABILITY (Continued)

Actuarial Assumptions (Continued)

The following actuarial assumptions were applied to all periods included in the measurements as of June 30, 2022:

Inflation Rate 2.75%

Projected Salary Increase Ranges from 4.15% to 12.25% based on years of service,

including inflation

Investment Return Rate 7.00%, including inflation but net of investment expenses.

Real Across-the-Board Salary Increase 0.50%

Cost of Living Adjustments

(COLAs)

Mortality

2.75% of Tiers 1-6 retirement income.

Healthy: Pub-2010 Safety Healthy Retiree Headcount-Weighted Above-Median Mortality Table multiplied by 105% for males and 100% for females, projected generationally with the two-dimensional mortality improvement scale MP-2019.

Disabled: Pub-2010 Safety Disabled Retiree Headcount-Weighted Mortality Table projected generationally with the two-dimensional mortality improvement scale MP-

2019.

Beneficiary: Pub-2010 General Healthy Retiree Headcount-Weighted Above-Median Mortality Table multiplied by 105%, projected generationally with the two-dimensional mortality improvement scale MP-2019.

Investment Return Rate

The long-term expected rate of return on OPEB Plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of inflation and, beginning with June 30, 2023, any applicable investment management expenses) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected real rates of return by the target asset allocation percentage and by adding expected inflation and deducting expected investment expenses (beginning with June 30, 2023 including only investment consulting fees, custodian fees and other miscellaneous investment expenses) and a risk margin. The target allocation and projected arithmetic real rates of return for each measurement class, after deducting inflation, are shown in the following table. These values for 2023 are after deducting applicable investment management expenses while the values for 2022 are before reduction for investment expenses. These values were used in the derivation of the long-term expected investment rate of return assumption for June 30, 2023 and 2022. This information will change every three years based on the actuarial experience study.

NOTE 6 – NET OTHER POST-EMPLOYMENT BENEFITS LIABILITY (Continued)

Investment Return Rate (Continued)

	Target All Percen		Long Term Exp Rate of R	
Asset Class	2023	2022	2023	2022
Large Cap U.S. Equity	23.00%	23.00%	6.00%	5.40%
Small Cap U.S. Equity	6.00%	6.00%	6.65%	6.20%
Developed International Equity	16.00%	16.00%	7.01%	6.54%
Emerging Markets Equity	5.00%	5.00%	8.80%	8.78%
U.S. Core Fixed Income	9.90%	13.00%	1.97%	1.07%
High Yield Bonds	2.75%	3.00%	4.63%	3.31%
Global Credit	2.75%	N/A	0.89%	N/A
Real Estate	7.00%	7.00%	3.86%	4.65%
Treasury Inflation Protected Securities (TIPS)	4.40%	4.00%	1.77%	0.62%
Commodities	1.00%	5.00%	4.21%	3.05%
Cash	1.00%	1.00%	0.63%	0.01%
Private Credit	2.00%	N/A	6.48%	N/A
Unconstrained Fixed Income	2.20%	2.00%	2.50%	1.37%
Private Equity	14.00%	12.00%	9.84%	8.25%

Total Portfolio	100.00%	100.00%	5.80%	4.99%

Discount Rate

The discount rate used to measure the TOL was 7.00% as of June 30, 2023 and June 30, 2022. The projection of cash flows used to determine the discount rate assumed employer contributions will be made at rates equal to the actuarially determined contribution rates for each tier. For this purpose, only employer contributions that are intended to fund benefits for current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future members and their beneficiaries are not included. Based on those assumptions, the Plan Fiduciary Net Position was projected to be available to make all projected future benefits payments for current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the TOL as of both June 30, 2023 and June 30, 2022.

NOTE 6 – NET OTHER POSTEMPLOYMENT BENEFITS LIABILITY (Continued)

Sensitivity Analysis

The following presents the NOL of the System as of June 30, 2023 and 2022, calculated using the discount rate of 7.00%, as well as what the System's NOL would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease Current Discount		1% Increase		
	(6.00%)	Rate (7.00%)	(8.00%)		
NOL as of June 30, 2023	\$ 1,412,582,167	\$ 848,211,765	\$ 391,584,766		
NOL as of June 30, 2022	\$ 1,469,980,422	\$ 927,209,794	\$ 488,482,606		

Sensitivity Analysis to Changes in Trend Rate

The following presents the NOL of the Health Subsidy Plan of the System as of June 30, 2023 and 2022, as well as what the System's NOL would be if it were calculated using a trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease		<u>C</u>	urrent Trend	1% Increase	
NOL as of June 30, 2023	\$	374,973,758	\$	848,211,765	\$	1,443,519,710
NOL as of June 30, 2022	\$	470,992,806	\$	927,209,794	\$	1,503,027,800

Additional information from the actuarial valuations as of June 30, 2023 and 2022 are as follows:

	June 30, 2023	June 30, 2022				
Non-Medicare Medical Plan	7.25%, then graded down to an ultimate of	7.25%, then graded down to an ultimate of				
	4.50% over 11 years	4.50% over 11 years

Note: The System pays the lower of the member's subsidy or member's medical/dental plan premium.

NOTE 6 – NET OTHER POST-EMPLOYMENT BENEFITS LIABILITY (Continued)

Health Subsidy Plan Membership

The component of the Health Subsidy Plan membership at June 30, 2023 and 2022, are as follows:

	2023	2022
Retired Members	10,260	9,966
Beneficiaries	1,712	1,703
Vested Terminated Members	1,017	1,011
Active Members	12,571	12,771
	25,560	25,451

NOTE 7 – <u>CASH</u>, <u>TEMPORARY INVESTMENTS</u>, <u>AND OTHER INVESTMENTS</u>

Cash and Temporary Investments

The System considers investments purchased with a maturity of 12 months or less to be temporary investments. At June 30, 2023, cash and temporary investments consisted of \$7,966,474 cash held by the City Treasurer's office and \$777,050,780 in collective short-term investment funds (STIF). At June 30, 2022, cash and temporary investments consisted of \$6,761,031 cash held by the City Treasurer's office and \$910,755,097 in collective short-term investment funds (STIF). Cash held by the City Treasurer's office is pooled with funds of other City agencies and is not individually identifiable. The temporary investments are not leveled and not included in the following fair value measurements hierarchy table.

Fair Value of Investments

The System measures and categorizes its investments using fair value measurements guidelines established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The levels of valuation inputs are as follows:

Level 1 – Quoted prices for identical assets or liabilities in an active market

Level 2 – Observable inputs other than quoted market prices; and,

Level 3 – Unobservable inputs.

NOTE 7 – <u>CASH</u>, <u>TEMPORARY INVESTMENTS</u>, <u>AND OTHER INVESTMENTS</u> (Continued)

At June 30, 2023, the System has the following recurring fair value measurements (\$ in thousands):

	Ju	ne 30, 2023	Level 1	Level 2	I	Level 3
Investments by fair value level						
Debt Securities						
U.S. Treasuries	\$	2,241,681	\$ -	\$ 2,241,681	\$	-
U.S. Agencies		680,304	-	679,806		498
Municipal/Provincial Bonds		13,242	-	13,242		-
Collateralized Debt Obligations		595,227	-	593,887		1,340
Commercial Paper		153,755	-	153,755		-
Corporate Bonds		2,398,652	-	2,397,564		1,088
Total Debt Securities		6,082,861	-	6,079,935		2,926
Equity Securities						
Common Stock		15,580,963	15,566,235	1,768		12,960
Preferred Stock		97,389	93,116	-		4,273
Other		37	1	_		36
Total Equity Securities		15,678,389	15,659,352	1,768		17,269
Real Estate		630,011	 151,854	-		478,157
Derivatives		10,906	-	10,906		_
Total Investments by Fair Value	\$	22,402,167	\$ 15,811,206	\$ 6,092,609	\$	498,352
Investment measured at the net asset value (No. 1971) Private Equity Partnerships	NAV) \$	5,574,040				
Real Estate		1,102,561				
Corporate Debt Securities		47,130				
Total Investments Measured at NAV	\$	6,723,731				

Note: Temporary investments of \$777 million are not included in the fair value hierarchy above.

Equity securities classified in Level 1 are valued using prices quoted in active markets for those securities. Debt and equity securities such as U.S. Treasuries, U.S. Agencies, municipal bonds, collateralized debt obligations, commercial paper, corporate bonds and other equity securities are classified in Level 2. They are valued using quoted prices for identical securities in markets that are not active. The value prices observed used market-based inputs.

Debt securities, namely collateralized debt obligations and corporate bonds, classified in Level 3 are valued using unobservable inputs which can be extrapolated data, proprietary models or indicative quotes. Other equity securities classified in Level 3 are valued using uncorroborated indicative quotes.

NOTE 7 – CASH, TEMPORARY INVESTMENTS, AND OTHER INVESTMENTS (Continued)

Fair Value of Investments (continued)

Real estate separate account investments are valued based on an independent appraisal or other methods using various techniques including models. Real estate separate accounts are scheduled for independent appraisal on a rolling 3-year period.

The System's investments such as private equity partnerships, comingled real estate funds, asset/mortgage-backed security funds and commercial mortgages are valued using the net asset value (NAV). Real estate pooled investments are valued based on an independent appraisal or other methods using various techniques including models.

Investments measured at the NAV (\$ in thousands):

					Redemption	
					Frequency (if	Redemption
			1	Unfunded	currently	Notice
Investment Strategy	I	Fair Value	Co	mmitments	eligible)	Period
Private Equity funds and Partnerships	\$	5,574,040	\$	2,536,216	N/A	-

NOTE 7 – CASH, TEMPORARY INVESTMENTS, AND OTHER INVESTMENTS (Continued)

Investment Policy

The Board is responsible for adopting an investment policy using the "prudent person standard" per Article XI, Section 1106 (c) of the City Charter. Investments are made with care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person, acting in a like capacity and familiar with such matters, would use in the conduct of an enterprise of a like character and with like aims.

The Board's adopted allocation policy effective during fiscal years 2023 and 2022 were as follow:

Asset Class	2023	2022
Large Cap U.S. Equity	23.00%	23.00%
Small Cap U.S. Equity	6.00%	6.00%
Developed International Equity	16.00%	16.00%
Emerging Markets Equity	5.00%	5.00%
U.S. Core Fixed Income	9.90%	12.00%
High Yield Bonds	2.75%	3.00%
Global Credit	2.75%	0.00%
Real Estate	7.00%	7.00%
Treasury Inflation Protected Securities (TIPS)	4.40%	5.00%
Commodities	1.00%	1.00%
Cash	1.00%	1.00%
Private Credit	2.00%	2.00%
Unconstrained Fixed Income	2.20%	2.00%
Private Equity	14.00%	14.00%
Real Estate Investment Trusts (REITS)	3.00%	3.00%
Total Portfolio	100.00%	100.00%

Credit Risk

Credit risk is the risk that an issuer or a counterparty to an investment will not fulfill its obligations. The System seeks to maintain a diversified portfolio of fixed income securities in order to obtain the highest total return at an acceptable level of risk within this asset class.

NOTE 7 – CASH, TEMPORARY INVESTMENTS, AND OTHER INVESTMENTS (Continued)

Credit Risk (Continued)

As of June 30, 2023, the quality ratings of the System's fixed income investments in U.S. Government obligations and domestic corporate and foreign bonds are as follows:

Quality Rating	Fair Value	Percentage
AAA	\$ 2,500,754,064	46.41%
AA	91,149,151	1.69%

Total Fixed Income Investments	\$ 5,540,380,380	

NOTE 7 – CASH, TEMPORARY INVESTMENTS, AND OTHER INVESTMENTS (Continued)

Custodial Credit Risk

For deposits, custodial credit risk is the risk that, in the event of a bank failure, the System's deposits and collateral securities in the possession of an outside party would not be recoverable. Deposits are exposed if they are not insured or are not collateralized. As of June 30, 2023 and 2022, the System's exposure to custodial credit risk comprised of foreign currencies held outside the custodial bank amounted to \$14,071,365 and \$15,875,021, respectively.

For investment securities, custodial credit risk is the risk that, in the event of the failure of the counterparty, the System will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if they are not insured, or are not registered in the System's name, and held by the counterparty. As of June 30, 2023 and 2022, the System's investments in publicly traded stocks and bonds were not exposed to custodial risk since they are all held by the custodian and are registered in the System's name. As of June 30, 2023 and 2022, the private equity of \$5,584,945,807 and \$4,926,476,889, and commingled real estate funds of \$1,102,561,238 and \$1,359,314,896, were exposed to custodial credit risk, respectively. As of June 30, 2022, the System's sole hedge fund investment amounted to \$75,155,719 and was subject to custodial credit risk. However, as of June 30, 2023, the System no longer maintains any hedge fund investments, in accordance with the Board's decision to terminate the hedge fund program. Consequently, custodial credit risk associated with hedge fund investments has been eliminated.

Concentration of Credit Risk

Concentration of credit risk exists when the System has investments in a single issuer totaling 5% or more of the total investment portfolio. As of June 30, 2023 and 2022, the System's investment portfolio contained no such concentrations. Securities issued or guaranteed by the U.S. Government are exempt from this limitation.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. The System manages its exposure to interest rate risk by requiring a fixed income investment manager to maintain the effective duration of their portfolio within a specified range of (1) the Bloomberg US Aggregate Bond Index for core fixed income investments, (2) the Bloomberg US Mortgage Backed Securities Index for mortgage backed investments, (3) the Bloomberg US Government/Credit Long-Term Bond Index for long duration investments, (4) the B of A ML High Yield Master II Index for high yield investments (5) the Bloomberg US Government Inflation-Linked Bond Index for inflation-linked investments, and (6) a blend of the Bloomberg Global Aggregate Credit Index USD, ICE B of A ML Developed Markets High Yield Index USD, JP Morgan Emerging Markets Bond Index Global Diversified USD and Credit Suisse Leveraged Loan Index for global credit investments. The longer the duration, the greater the sensitivity to interest rate changes. Information about the sensitivity of the System's investments to interest rate fluctuations is provided in the following table that shows the weighted average maturity of the System's fixed income investments by investment type.

NOTE 7 – CASH, TEMPORARY INVESTMENTS, AND OTHER INVESTMENTS (Continued)

Interest Rate Risk (Continued)

Fiscal Year 2023		Weighted Average Maturity

NOTE 7 – CASH, TEMPORARY INVESTMENTS, AND OTHER INVESTMENTS (Continued)

Interest Rate Risk (Continued)

Highly sensitive investments are certain debt investments whose terms may cause their fair value to be highly sensitive to market interest rate changes. The following are asset-backed investments by investment type:

	2023	2022
Investment Type	 Fair Value	Fair Value
Asset Backed Securities	\$ 337,188,760	\$ 241,431,855
Commercial Mortgage-Backed	117,156,293	173,293,013
Government Agencies Bonds	90,242,534	61,151,462
Government Mortgage Backed Securities	647,405,731	497,879,139
Non-Government Backed Collateralized Mortgage Obligations	140,882,261	50,265,844
	\$ 1,332,875,579	\$ 1,024,021,313

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair values of deposits or investments. The System's asset allocation policy sets a target of 21% of the total portfolio for non-U.S. investments in equities for fiscal years 2023 and 2022. The majority of the System's currency exposure comes from its holdings of foreign stocks. In addition, fixed income, real estate, and private equity managers may hold non-U.S. investments depending on their individual investment strategies. The System's foreign investment holdings, including foreign currencies in temporary investments as of June 30, 2023 and 2022 are as follows:

NOTE 7 – CASH, TEMPORARY INVESTMENTS, AND OTHER INVESTMENTS (Continued)

Note: The foreign currency total comprises foreign stocks, foreign bonds, and currency holdings.

NOTE 7 – <u>CASH, TEMPORARY INVESTMENTS, AND OTHER INVESTMENTS</u> (Continued)

Money-Weighted Rate of Return

The money-weighted rate of return expresses investment performance, gross of investment expense, adjusted for the changing amounts actually invested. The annual money-weighted rate of return on the investment of the Pension Plan and Health Subsidy Plan, gross of investment expense, for the years ended June 30, 2023 and 2022, was 7.78% and (7.23)%, respectively. The source for the rate of return was the June 30, 2023 and 2022 Monthly Returns Analysis provided by the custodian bank, Northern Trust.

NOTE 8 – <u>SECURITIES LENDING</u>

The System has entered into various short-term arrangements with its custodian, whereby investments are loaned to various brokers, as selected by the custodian. The lending arrangements are collateralized by cash, letters of credit, and marketable securities held on the System's behalf by the custodian. These agreements provide for the return of the investments and for a payment of a) a fee when the collateral is marketable securities or letters of credit, or b) interest earned when the collateral is cash on deposit.

Upon direction of the Board, the custodian may loan securities to brokers or dealers or other borrowers upon such terms and conditions, as it deems advisable. Collateral for the securities on loan will be maintained at a level of at least 102 percent of their fair value plus any accrued interest for U.S. securities lending and 105 percent of the fair value plus any accrued interest for non-U.S. securities lending. At yearend, the System has no credit risk exposure to borrowers because the amounts the System owes the borrowers exceed the amounts the borrowers owe the System.

The borrower has all incidents of ownership with respect to the borrowed securities and collateral including the right to vote and transfer or loan borrowed securities to others. The System is entitled to receive all distributions, which are made by the issuer of the borrowed securities, directly from the borrower. Under the agreement, the custodian will indemnify the System as a result of the custodian's failure to: (1) make a reasonable determination of the creditworthiness of a potential borrower before lending and, during the term of the loan or loans, the borrower files a petition of bankruptcy or similar action, (2) demand adequate collateral, or (3) otherwise maintain the securities lending program in compliance with the Federal Financial Institutions Examinations Council Supervisory Policy on Securities Lending.

These agreements provide the return of the securities and revenue determined by the type of collateral received (from which the custodian's fee is deducted). The securities on loan to brokers are shown at their fair value on the System's Statements of Fiduciary Net Position.

As required by GASB, cash received as collateral on securities lending transactions is reported as an asset, and the liabilities from these transactions are reported in the Statements of Fiduciary Net Position. The System cannot pledge or sell non-cash collateral unless the borrower defaults.

As of June 30, 2023 and 2022, the fair value of securities on loan was \$1,647,214,090 and \$1,599,550,397, respectively, and the fair value of collateral received was \$1,681,198,731 and \$1,660,438,274, respectively. Of the \$1,681,198,731 collateral received as of June 30, 2023, \$994,094,326 was cash collateral and \$687,104,405 represented the fair value of non-cash collateral; and of the \$1,660,438,274 collateral received as of June 30, 2022, \$1,354,880,227 was cash collateral and \$305,558,047 represented the fair value of non-cash collateral. Non-cash collateral, which the System does not have the ability to pledge or sell unless the borrower defaults, is not reported in the Statements of Fiduciary Net Position.

NOTE 8 – <u>SECURITIES LENDING</u> (Continued)

The following represents the balances relating to the securities lending transactions as of June 30, 2023 and 2022:

Fair value of collateral received for loaned securities as of June 30, 2023:

International Fixed Income Securities	7,565,775	-	7,565,775
International Equities	77,269,724	80,364,568	157,634,292
	\$ 1,308,915,188	\$ 290,635,209	\$ 1,599,550,397

For the fiscal years ended June 30, 2023 and 2022, securities lending income amounted to \$6,080,080 and \$4,738,355, respectively, while securities lending expenses amounted to \$850,027 and \$661,973, respectively.

NOTE 9 – DERIVATIVE INSTRUMENTS

The System, through its outside investment managers, holds investments in swaps, options, rights, and warrants and enters into futures and forward foreign currency contracts to manage portfolio risk or use them as substitutes for owning securities. Forward contracts are subject to credit risk if the counterparties to the contracts are unable to meet the terms of the contract. Futures contracts have little credit risk, as organized exchanges are the guarantors. Due to the level of risk associated with derivative investments, it is reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect the amount reported in the financial statements.

The fair values of the futures that are traded on various exchanges are determined by the price on that exchange. Fair values for the currency forward contracts are determined by the exchange rate of the reference currency on the last day of the reporting period.

NOTE 9 – <u>DERIVATIVE INSTRUMENTS</u> (Continued)

For options, swaps, rights, and warrants pricing would come from the exchange they are traded on if they are exchange traded securities.

They can also trade as over-the-counter securities and the market values would then be determined by the value of a reference security or value that would typically be publicly priced. For assets traded over the counter and held at the custodian bank an independent pricing service is involved in calculating the price of the derivative security using the value of the reference security or reference value.

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2023, classified by type, and the changes in fair value of such derivative instruments for the year then ended as reported in the 2023 financial statements are as follows:

	Changes in Fai	r Value	Fair Value at	Notional	
Туре	Classification	Amount	Classification	Amount	Amount
Investment Derivatives:					
Futures - Shorts	N/A	\$ -	Investment	\$ -	\$ (134,595,398)

NOTE 11 - <u>SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENT</u> (SBITA)

The System has entered into a three-year subscription arrangement for the right to use a document storage management system. The agreement is effective from July 2023 to June 2026. A fixed payment of \$27,630 is due on the first day of each quarter during the term.

As of June 30, 2023, the System has recognized an intangible asset – SBITA, valued at \$311,219. This valuation is based on the present value of the future payments required under the arrangement. A corresponding liability of the same amount has been also recorded. No amortization expenses have been recognized for the fiscal year ending June 30, 2023, as the subscription services will become active starting in the next fiscal year. Amortization of the SBITA will commence in fiscal year 2024 and will be recognized over the three-year term of the arrangement.

The future minimum subscription payments under this agreement, as of June 30, 2023, are as follows:

Year Ending	Principal		Interest		Total	
2024	\$	101,403	\$	9,117	\$	110,520
2025		102,465		8,055		110,520
2026		107,351		3,169		110,520
	\$	311,219	\$	20,341	\$	331,560

NOTE 12 – LEASES

LAFPP as a Lessee

The System has evaluated its existing lease agreements as a lessee and determined that the amounts associated do not have a material effect on the System's financial statements under GASB Statement No. 87. *Leases*.

LAFPP as a Lessor

The System entered into three lease agreements to provide office and retail space in the headquarters building to external parties. These leases meet the criteria for recognition as a lessor under GASB Statement No. 87. These leases have a term of three years, with no option for renewal. Per lease agreements, there are predetermined fixed-rate annual increases in lease payments.

As a lessor, the System measures the lease receivable at the lease commencement date as the present value of payments expected to be received from tenants during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term. Interest is also recognized on the lease receivable earned during the current fiscal year as interest revenue.

The System has recognized \$219,116 in lease revenue during the current fiscal year ended to these leases. As of June 30, 2023, the System has lease receivables in the amount of \$536,880. Also, the System has a deferred inflow of resources associated with these leases that will be recognized as revenue over the lease terms. As of June 30, 2023, the balance of the deferred inflow of resources is \$517,661.

NOTE 12 - <u>LEASES</u> (Continued)

LAFPP as a Lessor (Continued)

Future annual receipts for these leases as of June 30, 2023 are as follows:

Year Ending	Principal		Interest		Total	
2024	\$ 265,414	\$	19,568	\$	284,982	
2025	238,775		6,802		245,577	
2026	32,691		385		33,076	
	\$ 536,880	\$	26,755	\$	563,635	

NOTE 13 – MORTGAGES PAYABLE

Mortgages are secured by real estate. For fiscal year 2023, interest rates range from 1.81% to 4.30% per annum. The average monthly principal and interest payments range from \$10,893 to \$88,479. For fiscal year 2022, interest rates ranged from 1.81% to 4.30% per annum. The average monthly principal and interest payments ranged from \$37,708 to \$88,479.

The mortgages mature from October 2023 to November 2032. Principal and interest payments due under such mortgages are as follows for the years ending June 30:

Year Ending	Principal	Interest		Total	
2024	\$ 13,593,299	\$	5,704,315	\$	19,297,614
2025	29,050,000		4,752,566		33,802,566
2026	-		4,536,506		4,536,506
2027	25,000,000		4,197,131		29,197,131
2028	-		4,084,006		4,084,006
2029-2033	 128,970,000		6,228,020		135,198,020
	\$ 196,613,299	\$	29,502,544	\$	226,115,843

The mortgages are secured by real estate that was purchased with the funds.

The following is a summary of mortgage payable activities for the years ended June 30, 2023 and 2022:

	Balance June 30, 2022	Additions	Deletions	Balance June 30, 2023	Fair Value June 30, 2023
Mortgage Payable	\$ 221,167,168	\$ -	\$ 24,553,869	\$ 196,613,299	\$ 186,991,284
	Balance June 30, 2021	Additions	Deletions	Balance June 30, 2022	Fair Value June 30, 2022
Mortgage Payable	\$ 217,434,561	\$ 4,270,664	\$ 538,057	\$ 221,167,168	\$ 212,500,008

NOTE 14 – COMMITMENTS AND CONTINGENCIES

Termination Rights

All members who were active on or after July 1, 1982, have a vested right to their past contributions and accrued interest in the event of their termination prior to retirement, except Tier 4 members. The dollar amount of contributions and interest subject to this right were \$2,102,036,289 and \$2,123,853,131 as of June 30, 2023 and 2022, respectively.

The City Charter and the Administrative Code provide that member contributions as of June 30 and December 31 of each year earn interest at a rate based on investment earnings, exclusive of gains and losses on principal resulting from sales of securities.

Investment Commitment

The System has commitments to contribute capital for real estate and alternative investments in the aggregate amount of approximately \$3,097,744,000 and \$3,175,652,000 at June 30, 2023 and 2022, respectively.

Retiree Health Subsidy Litigation

In fiscal year 2022-2023, there were two cases before the courts that involved the retiree health insurance premium subsidy program that LAFPP administers ("retiree medical subsidy"). Both pending actions were brought by the Los Angeles Police Protective League against the Board and the City.

The two cases (the "LAPPL I Action" and the "LAPPL II Action") both seek to determine what retiree medical subsidy benefit the additional 2% salary contribution provides members who make the contribution under the unions' and City's 2011 Letter of Agreement ("LOA"). The union argues that the 2% contribution grants members the ceiling amount under Los Angeles Administrative Code ("LAAC") § 4.1167, meaning either 7% or the medical trend rate for that year, whichever of the two is lower, with no discretion reserved to the LAFPP Board. The City argues that the 2% contribution gives members only the right to get out from under the 2011 Freeze Ordinance and participate in the process that existed under LAAC § 4.1154(e) prior to the 2011 Freeze Ordinance. Under the pre-Freeze Ordinance process, the LAFPP Board may exercise its discretion in setting the annual subsidy rate and can set it up to the maximum amount of 7% or the medical trend rate, whichever is lower.

In the LAPPL I Action, on April 15, 2016, the plaintiffs agreed to dismiss LAFPP from the action in exchange for LAFPP's agreement to be bound by the final judgment rendered in the case. Until a court of competent jurisdiction renders a final judgement on the interpretation of the LOA, LAFPP has a fiduciary duty to follow LAAC § 4.1154(e) as written and its Board must continue to exercise its discretion in setting the retiree medical subsidy as it did before the 2011 Freeze Ordinance.

The LAPPL Action I proceeded to trial, and on November 1, 2016, the trial court ruled in favor of the plaintiffs, finding that the language of the LOA was unambiguous without weighing the conflicting evidence regarding the interpretation of the LOA and the parties' intent. The City appealed, and on October 30, 2018, the Second District Court of Appeal reversed and remanded the case for further proceedings consistent with the Court of Appeal's decision. In its decision, the Court of Appeal found that the provisions at issue in the LOA were ambiguous, which required the trial court to consider and weigh the evidence of the parties' intent in its interpretation of the provisions, which the trial court did not do.

NOTE 14 – COMMITMENTS AND CONTINGENCIES (Continued)

Retiree Health Subsidy Litigation (Continued)

While the LAPPL Action I was pending on appeal, on August 10, 2017, the union filed LAPPL Action II. The LAPPL Action II raises the same issues as the LAPPL Action I regarding the 2% contribution and the interpretation of the LOA, but also asserts a new breach of fiduciary duty claim against LAFPP, which preserves the union's rights to challenge LAFPP's 2017 discretionary action to set the subsidy should the union lose in the pending LAPPL Action I. On July 3, 2018, the LAPPL filed a First Amended Complaint, asserting the same claims based on LAFPP's 2018 discretionary action in setting the subsidy. The union filed a Second Amended Complaint to add LAFPP's 2019 and 2020 discretionary actions in setting the subsidy. The union later sought to file a Third Amended Complaint to add LAFPP's 2021 discretionary actions in setting the subsidy, and on or around August 11, 2021, the parties stipulated to permit the union to file its Third Amended Complaint. The union has not filed any further amended pleadings for LAFPP's 2022 and 2023 discretionary actions.

On February 15, 2019, upon remand of the LAPPL I Action back to the Superior Court, the case was reassigned to Judge Holly Fujie for further trial proceedings. The City filed a motion to consolidate the two actions before Judge Fujie, which the Court granted. On September 30, 2019, Judge Fujie ordered that the case be heard in phases. In Phase One, the LOA interpretation issues common to LAPPL I and LAPPL II are to be heard in a bench trial. Upon resolution of Phase One, the Court will then address the residual fiduciary duty claims against LAFPP unique to LAPPL II.

On September 20 and 21, and October 28, 2021, Judge Fujie held a bench trial began in Phase One of the consolidated action. On May 2, 2022, Judge Fujie issued the trial court's Final Statement of Decision for Phase One in favor of the City on the LOA interpretation issues. On June 23, 2022 the union plaintiff appealed the trial court's Final Statement of Decision for Phase One. As of October 10, 2023, Phase One of the consolidated action is pending on appeal and Phase Two continues to be stayed pending the final resolution of Phase One.

<u>Current Status of the Retiree Medical Subsidy</u>

As a result of the outcome in the Fry Action, which concluded in the 2016-2017 fiscal year, LAFPP continues to provide a subsidy frozen at the 2011 levels to current and future retired members who chose not to "opt-in" and contribute an additional 2% of their salaries in order to avoid the consequences of the Freeze Ordinance.

With regard to the consolidated LAPPL Action I and LAPPL Action II, until a final judgment is rendered on the LOA issues in Phase One, LAFPP will continue to abide by its fiduciary duty to follow LAAC § 4.1154(e) as written and to set and implement the retiree health insurance premium subsidy increases in the same manner as it did prior to the 2011 Freeze Ordinance for members who opted-in to pay the 2% contribution. This means that the LAFPP Board continues to exercise its discretion provided under the Los Angeles Administrative Code to set the subsidy up to and including the medical trend rate or 7%, whichever is lower, until the courts render final judgment.

NOTE 15 – <u>RISKS AND UNCERTAINTIES</u>

The System invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Fiduciary Net Position.

As of the date of this report, investment markets continue to experience increased volatility due to high inflation rates globally, actions by central banks to control inflation via higher interest rates, geopolitical tensions, and investor concerns over a looming recession in the U.S. As a result, the Plan's investment portfolio has experienced volatility in fair market value. However, because the values of the Plan's investments have and will fluctuate in response to changing market conditions, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined. The value of the Plan's investments has a direct impact on its funded status. As a result of any declines in market value the Plan Sponsor may need to make greater cash contributions to fund the Plan in the future. However, the actual impact, if any, on future required contributions or Plan liquidity cannot be determined at this time.

NOTE 16 – SUBSEQUENT EVENTS

Subsequent events have been evaluated through November 27, 2023, which is the date the financial statements were available to be issued and, no events have occurred that require consideration or adjustments in the financial statements.

Notes to Schedule:

GASB Statement No.67 requires this information to be reported for 10 years.

- (1) Contribution rate as a percentage of covered payroll reflects discount applied when the employer prepays its contributions. This rate has been "backed" into by dividing the actual contributions by the budgeted covered payroll.
- (2) Amount excluded \$1.3 million transferred from the Los Angeles City Employees' Retirement System (LACERS) for the Airport Police members who elected to join the Pension Plan in Tier 6.
- (3) Covered payroll represents payroll on which contributions to the Pension Plan are based.

REQUIRED SUPPLMENTARY INFORMATION PENSION PLAN

SCHEDULE OF INVESTMENT RETURNS

(Unaudited)

Methods and assumptions used to establish "actuarially determined contribution" (ADC) rates:

The assumptions used in establishing the ADC for the year ended June 30, 2023 were based on the June 30, 2021 funding valuation.

Valuation Date Actuarially determined contribution rates are calculated as of June 30, two

years prior to the end of the fiscal year in which contributions are reported.

Actuarial Cost Method Entry Age Actuarial Cost Method.

Amortization Method For Tier 1, level dollar amortization is used with last period ending on June 30,

2037. For Tiers 2, 3 and 4, level percent of payroll amortization with multiple layers is used as a percent of total valuation payroll from the respective employer (i.e., City). For Tiers 5 and 6, level percent of payroll with multiple layers is used as a percent of combined payroll for these tiers from the respective employer (i.e., City, Harbor Department, or Airport Department).

Remaining Amortization Period Any Surplus is amortized over an open (non-decreasing) 30-year period.

Actuarial gains/losses are amortized over 20 years. Assumption changes are

amortized over 20 years. Plan changes are amortized over 15 years.

Asset Valuation Method The market value of assets less unrecognized returns. Unrecognized return is

equal to the difference between the actual and the expected return on a market value basis and is recognized over a seven-year period. The actuarial value of assets is further adjusted, if necessary, to be within 40% of the market value of

assets.

Actuarial Assumptions: June 30, 2021 Valuation

Investment Rate of Return 7.00%, net of investment expenses

Inflation Rate 2.75%

Administrative Expenses: Out of the total 1.40% of payroll in administrative expense, 1.29% of payroll

payable biweekly is allocated to the Pension Plan. This is equal to 1.25% of

payroll payable at beginning of the year.

Real Across-the-Board Salary 0.50%

Projected Salary Increases Ranges from 4.15% to 12.25% based on years of service

Cost of Living Adjustments 2.75% of retirement income for all Tiers. For Tier 5 and Tier 6 members who

have COLA banks, we assume they receive 3.0% COLA increases until their

COLA banks are exhausted and 2.75% thereafter.

REQUIRED SUPPLMENTARY INFORMATION PENSION PLAN SCHEDULE OF INVESTMENT RETURNS (Unaudited)

	2023	2022	2021	2020	2019
Annual money-weighted rate of return, gross of investment expense	7.78%	-7.23%	32.56%	3.04%	6.21%
	2018	2017	2016	2015	2014
Annual money-weighted rate of return, gross of investment expense	9.21%	13.27%	1.04%	4.15%	17.84%

Notes to Schedule:

GASB Statement No.67 requires this information to be reported for 10 years.

The money-weighted rate of return expresses investment performance, gross of investment expense, adjusted for the changing amounts actually invested. The source for the rate of return was the June 30 Investment Hierarchy and Monthly Returns Analysis provided by the custodian bank, Northern Trust. For the fiscal years 2014 through 2023, the custodian bank did not have all information related to investment expense to calculate the money-weighted rate of return net of investment expense. In fiscal year 2022, rates for the fiscal years 2014, 2016 and 2018 were updated from preliminary rates to final rates.

NOTES TO SCHEDULE OF EMPLOYER CONTRIBUTIONS

(Unaudited)

Methods and assumptions used to establish "actuarially determined contribution" (ADC) rates:

The assumptions used in establishing the ADC for the year ended June 30, 2023 were based on the June 30, 2021 funding valuation.

Valuation Date Actuarially determined contribution rates are calculated as of June 30, two

years prior to the end of the fiscal year in which contributions are reported.

Actuarial cost method Entry Age Actuarial Cost Method.

Amortization method For Tier 1, level dollar amortization is used with last period ending on June

30, 2037. For Tiers 2, 3 and 4, level percent of payroll amortization with multiple layers is used as a percent of total valuation payroll from the respective employer (i.e., City). For Tiers 5 and 6, level percent of payroll with multiple layers is used as a percent of combined payroll for these tiers from the respective employer (i.e., City, Harbor Department or Airport

Department).

Remaining amortization period Actuarial gains/losses are amortized over 20 years. Assumption changes are

amortized over 20 years. Plan changes are amortized over 15 years.

Asset valuation method The market value of assets less unrecognized returns. Unrecognized return is

equal to the difference between the actual and the expected return on a market value basis, and is recognized over a seven-year period. The actuarial value of assets is further adjusted, if necessary, to be within 40% of the market value

of assets.

Actuarial assumptions:

June 30, 2021 valuation

Investment rate of return 7.00%, net of investment expenses

Inflation rate 2.75%

Administrative Expenses: Out of the total 1.40% of payroll in administrative expense, 0.11% of payroll

payable biweekly is allocated to the Retiree Health Plan. This is equal to

0.11% of payroll payable at beginning of the year.

Real across-the-board salary 0.50%

Projected salary increases Ranges from 4.15% to 12.25% based on years of service

Other assumptions Same as those used in the June 30, 2021 funding actuarial valuations.

REQUIRED SUPPLMENTARY INFORMATION HEALTH SUBSIDY PLAN SCHEDULE OF INVESTMENT RETURNS (Unaudited)

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Fire and Police Pension Commissioners Los Angeles Fire and Police Pension System

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, financial statements of the Pension Plan and Health Subsidy Plan, administered by the Los Angeles Fire and Police Pension System (the System), which comprise the statements of fiduciary net position as of June 30, 2023, and the related statements of changes in fiduciary net position for the year then ended, and the related notes to the financial statements for each plan, and have issued our report thereon dated November 27, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the System's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, we do not express an opinion on the effectiveness of the System's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the System's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Los Angeles, California November 27, 2023

Administrative Expense	27,327,550	25,565,614
Total Expenditures	1,713,109,699	1,665,680,197
Increase (Decrease) in Fund Balance	(372,430,029)	(47,093,608)

SUMMARY OF RECEIPTS

The Department receives revenue primarily from three sources: Employer Contributions (City, Harbor, and Airport), Member Contributions, and Investment Earnings. In 2022-23, the Department received total revenue of \$1.62 billion¹, a decrease of \$1.76 billion, or -52.09%, from 2021-22. The change was primarily due to a decrease in the Gain (Loss) on Sale of Investments, as well as decreases to the City and Special Fund (Harbor) employer contributions.

EMPLOYER CONTRIBUTIONS

Employer Contributions are based on the application of the actuary's computed rates for each tier to the budgeted sworn payroll. It is comprised of the City's General Fund contribution and Special Fund (Harbor and Airport Departments) contributions. In 2022-23, Employer Contributions, excluding funds for the Excess Benefit Plan, totaled \$668.24 million, a decrease of \$60.35 million, or -8.28%, from 2021-22.

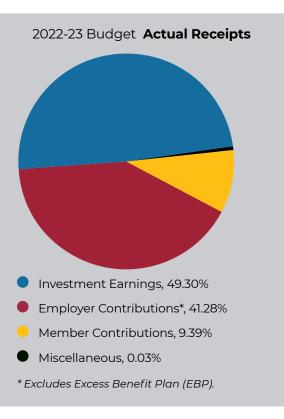

MEMBER CONTRIBUTIONS

Member Contributions are calculated based on the contribution rate for a member's tier. These rates range from 8% to 9% of salaries for members in Tiers 3 through 5, while members in Tier 6 contribute 11% of salary. All remaining active Tier 2 members have completed at least 30 years of service and therefore no longer make pension contributions. In 2022-23, revenue received from Member Contributions was \$151.93 million, an increase of \$2.69 million, or 1.80%, from 2021-22.

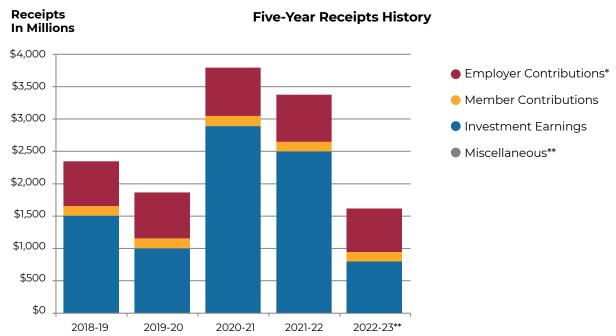

¹ This does not include Excess Benefit Plan funds.

INVESTMENT EARNINGS

Investment Earnings consist of 'Earnings on investments' and 'Gain (Loss) on Sale of Investments'. In 2022-23, the Department received investment earnings of \$797.95 million, a decrease of \$1.70 billion, or -68.08%, from 2021-22.

- Earnings on Investments includes real estate and private equity net cash, interest and dividends, and miscellaneous income. Earnings on Investments in 2022-23 were \$685.61 million, an increase of \$56.77 million, or 9.03%, from 2021-22.
- Gain (Loss) on Sale of Investments
 includes actual cash receipts to
 the Pension System on the sale of
 investments. Gains or losses on the sale
 of investments are a function of how
 many transactions are performed by
 our investment advisors. In 2022-23, the
 Department received \$112.34 million
 in cash through these transactions, a
 decrease of \$1.76 billion, or -94.00%,
 from 2021-22.

^{*} Excludes Excess Benefit Plan (EBP).

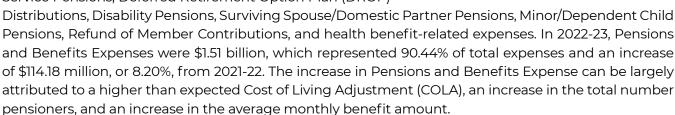

^{**} Miscellaneous receipts in 2022-23 were \$0.46 million or 0.03% of Total Receipts.

SUMMARY OF EXPENDITURES

The Department's expenses are divided into three categories: Pensions and Benefits, Investment Management, and Administrative Expenses. For 2022-23, expenses totaled \$1.67 billion, an increase of \$114.41 million, or 7.38%, from 2021-22.

PENSIONS AND BENEFITS EXPENSE

The Department's Pensions and Benefits Expense includes Service Pensions, Deferred Retirement Option Plan (DROP)

INVESTMENT MANAGEMENT EXPENSE

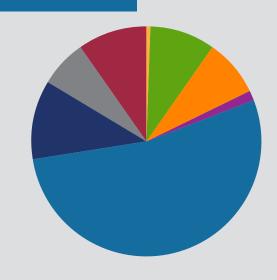

In 2022-23, the Investment Management Expense was \$133.73 million, which represented 8.03% of total expenses and a decrease of \$0.90 million, or -0.67%, from 2021-22. Actual payments to investment managers depend on the amount of assets under management, portfolio performance, the period in which the fee is calculated, and the terms and conditions of the individual contracts as approved by the Board.

ADMINISTRATIVE EXPENSE

Administrative Expense includes staff salaries and benefits, and operating costs. In 2022-23, the Department's Administrative Expense was \$25.57 million, which represented 1.53% of the total expenses and an increase of \$1.12 million, or 4.60%, from 2021-22. The Detail of Administrative Expense is provided on page 94.

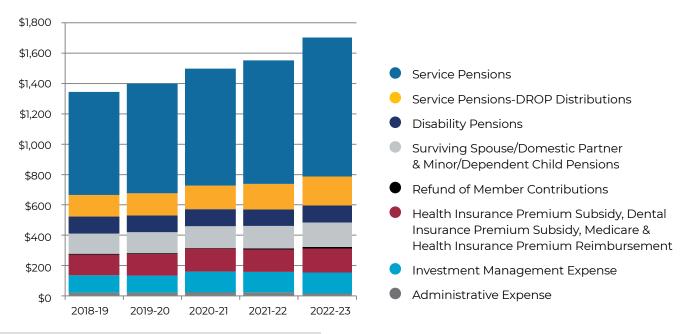

2022-23 Budget **Actual Expenditures**

- Service Pensions, 53.38%
- Service Pensions-DROP Distributions, 11.05%
- Disability Pensions, 6.70%
- Surviving Spouse/Domestic Partner& Minor/Dependent Child Pensions, 9.49%
- Refund of Member Contributions, 0.58%
- Health Insurance Premium Subsidy, Dental Insurance Premium Subsidy, Medicare & Health Insurance Premium Reimbursement, 9.24%
- Investment Management Expense, 8.03%
- Administrative Expense, 1.53%

Five-Year Expenditures History

Expenditures In Millions

DETAIL OF ADMINISTRATIVE EXPENSE

Administrative Expense includes staff salaries and benefits, and operating costs (including office and technical equipment).

SALARIES AND RELATED COSTS

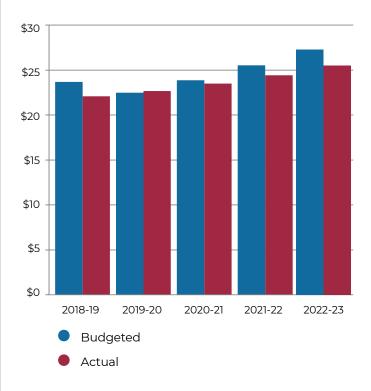

Salaries and Related Costs comprised 76.29% of the total Administrative Expense in 2022-23, with a total of \$19.50 million expended (an increase of \$0.66 million or 3.49% from 2021-22). The increase is largely attributed to an increase to the employer cost for staff retirement benefits, City-negotiated salary increases, and one-time payouts.

OPERATING COSTS

Operating Costs comprised 23.71% of the total Administrative Expense in 2022-23, with a total of \$6.06 million expended (an increase of \$0.47 million or 8.35% from 2021-22). The increase in operating costs is a result of growing contractual expenses, travel expenses, and medical services. These were offset with minor decreases to printing and binding, office and administrative, and election expenses.

INVESTMENT STATEMENT

The main goal of the Los Angeles Fire and Police Pension Plan's (System, Fund, or Plan) investment program is to manage the System's assets to be able to provide the retirement benefits promised to the System's members and their beneficiaries. The Charter of the City of Los Angeles created the System, and it delegates control and management of the System to the Board of Fire and Police Pension Commissioners (Board). Article XI, Section 1106 of the City Charter grants the Board sole and exclusive fiduciary responsibility for administering the System and specifies the Board's powers and duties, which includes the power to adopt any rules, regulations or forms necessary to carry out its administration of the System and the assets under its control.

The Board has adopted Investment Policies to assist and guide it in managing the System's assets. The Investment Policies assist the Board in effectively supervising and monitoring the System's investments by providing the goals of the investment program, the policies and procedures for the management of the investments, specific asset allocations and minimum diversification requirements, performance objectives and criteria for investment performance evaluation, and oversight standards for the parties responsible for carrying out the Investment Policies. The Investment Policies are reviewed by the Board at least annually and are revised as needed. The Policies are available at www. lafpp.com/investment-policies.

The single most important decision the Board can make in the management of the investment program is the determination of the System's asset allocation. The allocation of the System's assets among various asset classes influences both the expected investment return and the amount of investment risk undertaken. The asset allocation employed in 2022-23 was approved by the Board on August 20, 2020, and reaffirmed by the Board on October 6, 2022. It is available in Appendix 1 of Section 1.0 of the Investment Policies; it is also illustrated and discussed later in this Section under Asset Allocation Decisions.

For the five-year period that ended June 30, 2023, the System's total assets increased by \$7.06 billion to approximately \$29.39 billion. For the one-year period that ended June 30, 2023, the System's total assets increased by \$1.39 billion.

INVESTMENT ENVIRONMENT

Throughout fiscal year 2022-2023, global markets continued to experience bouts of volatility arising from concerns over persistently higher inflation, which prompted central banks worldwide to reevaluate and enact tighter monetary policies. Notably, the U.S. Federal Reserve Bank (Fed) aggressively hiked interest rates by a remarkable 350 basis points over the fiscal year in order to curtail rising inflation. The Fed also continued its quantitative tightening approach to reducing liquidity and tempering inflation by trimming its balance sheet of Treasury and mortgage-backed securities. Despite these steps, inflation remained above the Fed's 2% target, creating uncertainty about the future path of interest rates and increasing market expectations for a near-term recession in the U.S.

Higher interest rates also had other economic and financial consequences. Between March and May of 2023, several high-profile regional banks and a major global bank collapsed due to depositor concerns about the banks' liquidity in the new, higher interest rate environment. The real estate market, which is sensitive to interest rate fluctuations, also experienced negative shifts in pricing and decreased transaction volumes, particularly in the office sector which was already suffering from the effects of changing work trends in a post-pandemic era. The NCREIF (National Council of Real Estate Investment Fiduciaries) Fund Index - Open End Diversified Core Equity (NFI-ODCE) returned -9.98% for the fiscal year ended June 30, 2023.

INVESTMENT ENVIRONMENT, CONT.

However, the economic landscape was not entirely bleak. Despite fears of a looming recession, consumer demand remained robust and the labor market showed resilience. At fiscal year end, the national unemployment rate remained steady at 3.6% and the real Gross Domestic Product (GDP) increased 2.38%, topping the 2.00% consensus estimate. Consumer spending accounted for 68% of GDP.

U.S. equities, as measured by the Standard & Poor's (S&P) 500 index, had a strong year primarily due to the rise of artificial intelligence technology and its potential to revolutionize productivity. For the fiscal year ended June 30, 2023, the S&P 500 index recorded a return of 19.59%, which was mostly attributed to the seven largest companies in the S&P 500 index nicknamed the "Magnificent Seven": Amazon, Apple, Alphabet, Meta, Microsoft, Nvidia, and Tesla.

Non-U.S. equities, particularly in developed markets, also rallied in spite of persistent inflation, the continued turmoil stemming from the war in Ukraine, concerns about economic growth in China and the resulting impact to global growth, and other geopolitical matters. For the fiscal year ended, the MSCI EAFE (Europe, Australasia, and Far East) and MSCI Emerging Markets indices returned 18.77% and 1.75%, respectively.

The fixed income markets were challenged by the rising interest rate environment. The Bloomberg U.S. Treasury index returned -2.13% for the fiscal year ended June 30, 2023, with yields rising across all maturities. Since July 2022, the Treasury yield curve, which plots bond interest rates against their respective maturities, has been inverted with shorter-term rates being higher than longer-term rates, indicating that the U.S. economy is likely headed for a recession. As of June 30, 2023, the 6-month Treasury bill rate was 5.24% compared with the U.S. 10-year Treasury bond rate of 3.81%.

The U.S. credit market fared better than the Treasury market as the expectations for the number and magnitude of future Fed rate hikes eased throughout the year. Investors became less worried about the likelihood of a severe recession and the resulting negative impact to corporate borrowers. For the fiscal year ended, the Bloomberg U.S. Investment Grade and Bloomberg U.S. Corporate High Yield indices returned 1.55% and 9.06%, respectively. The total U.S. bond market including Treasuries and the various credit sectors (as measured by the Bloomberg U.S. Universal Bond index) returned -0.04%.

In the private markets, private equity-related deal activity continued to slow from the record highs of 2021 due to macroeconomic uncertainty, challenged debt markets, and geopolitical factors. Declining valuations in the public and private markets this year resulted in fewer private equity exit transactions via asset sales and initial public offerings.

INVESTMENT PERFORMANCE

The investment objective of the total Fund over a full market cycle (usually five to seven years) is to earn a return on investments matching or exceeding the actuarial assumed rate of return of 7.00% and investment performance above the median of a sampling of public funds.

Over the past five years, the System experienced annualized returns of 7.72%, exceeding the actuarial assumed rate of return and the RVK Public Funds median return of 6.64%. For the one- and three-year periods, the System's overall investment returns were 7.78% and 9.85%, respectively.

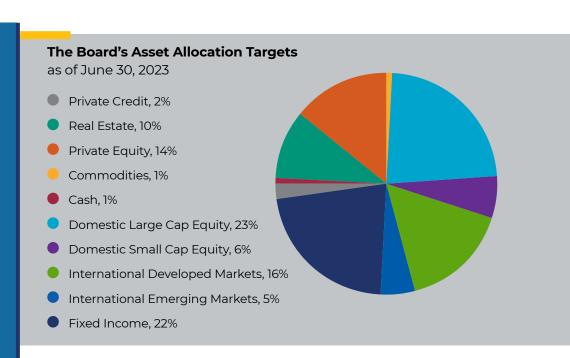

According to the RVK Public Fund universe, which analyzes more than 69 funds to compare asset allocation performance and actuarial comparative data, the System's Fund was ranked in the 66th percentile of the RVK universe for the one-year period, the 11th percentile for the three- and five-year periods, and the 12th percentile for the seven-year period ending June 30, 2023.

The System's top performers during this past year were its domestic and international equity portfolios, which generated returns of 17.29% and 16.58%, respectively. The real estate composite portfolio was the Fund's worst performer at -6.93%.

ASSET ALLOCATION DECISIONS

Our asset allocation plan establishes the blueprint for investing the System's assets in stocks, bonds, real estate, and cash equivalents over a three to five-year period. This plan is the single most important factor in managing risk and achieving the investment returns necessary to fund benefits.

The actual asset class percentages of the System will vary from target allocations due to inflows (such as employer and member contributions), outflows (such as pension payments), and the movements of the securities markets. Assets are periodically rebalanced to adjust for these movements.

ASSET ALLOCATION DECISIONS, CONT.

	Net Asset Values as of June 30, 2023	
Asset Class	Market Value (in millions)	Percent
Domestic Equity	\$ 8,918	30.35%
International Equity	5,716	19.45%
Fixed Income	5,962	20.29%
Private Equity	5,215	17.75%
Real Estate	3,095	10.53%
Commodities	271	0.92%
Cash Equivalents	208	0.71%
Total	\$29,385	100.00%

INVESTMENT ACTIVITIES

Over the course of this year, the Fund implemented the asset allocation consistent with Board decisions. The Fund conducted several searches and the Board selected the following managers to fulfil its mandates:

- Loomis Sayles & Co., LP was selected to implement and manage the newly created Global Credit mandate
- AllianceBernstein, LP, Blackrock, Inc., Northern Trust Asset Management, and RhumbLine Advisers were selected as the index providers on the new Index Provider Bench
- · StepStone Group was selected to implement and manage the new Private Credit mandate
- · Portfolio Advisors, LLC was selected to continue managing the private equity mandate

Several of the Fund's existing manager contracts were renewed. Managers that were rehired include:

- · Eastern Shore Capital Management, an active domestic small cap equity manager
- · Lisanti Capital Growth, LLC, an active domestic small cap growth equity manager
- · Denali Advisors, LLC, an active domestic small cap value manager
- · Mackay Shields, LLC, an active high yield fixed income manager
- · Brandes Investment Partners, LP, an active international value equity manager
- · Harding Loevner, an active emerging markets equity manager
- · The Townsend Group, a real estate consultant

The System's assets are managed by both active and passive investment managers. The active managers are hired to outperform a market index. The passive managers are hired to match the performance of certain investment indices. These indices include the domestic public equity S&P 500 and 600 indices, the Russell 1000 Growth index, the international public equity MSCI EAFE index, the fixed income Bloomberg U.S. Aggregate index, the Bloomberg U.S. Government Inflation Linked Bond index, the commodity public equity S&P Global Natural Resources index, and the real estate public equity FTSE EPRA/NAREIT All Equity REITs and Developed indices. A list of the System's managers is provided at the end of this section.

EMERGING AND DIVERSE MANAGER PROGRAM

LAFPP's Emerging and Diverse Manager Program began with the goal of providing access to investment managers who may historically or traditionally not have had access to institutional investors due to their size and/or years of institutional investing experience as a firm. The Board believes that newer and/or smaller firms have the potential to produce competitive investment returns for the Plan. Over the years, LAFPP has extended its

outreach criteria to include firms owned by minorities, women, persons with disabilities, U.S. military veterans, and/or Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ) individuals. The Emerging Manager Program seeks to remove barriers to the hiring of successful smaller and less established firms.

The System has had an Emerging Manager Program since 1987. LM Capital Group, LLC (an opportunistic fixed income manager first hired in 1997) is an example of a former emerging manager that is now one of our core managers. LM "graduated" long ago from emerging manager status and continues to manage money for the System.

The current program includes two direct fixed income emerging managers, and five direct domestic equity emerging managers. The System also has a Specialized Manager Program as part of the private equity allocation. This program was established in 2007 and is focused on attracting private equity funds that are first, second, or third-time funds and have a fund size of approximately \$500 million or less. Additionally, the focus is on funds that include minority, woman, LGBTQ, persons with disabilities, or U.S. military veteran ownership, investments in underserved areas, or investments in California or Los Angeles. Since 2007, several managers have graduated from the Specialized Manager Program to the Core Private Equity portfolio. Portfolio Advisors is tasked with managing this successful program.

PROXY VOTING

The System votes all domestic proxy ballots using a proxy ballot voting firm, while the international equities managers vote the proxy ballots for their portfolios in accordance with the Board's proxy guidelines. Recent changes to the proxy voting policies include voting for companies to report on environmental risks facing the organization.

The Board has a comprehensive proxy voting policy, which can be found in the Board's Investment Policies.

SECTION 5 ACTUARIAL

Funding Status
How a Valuation is Conducted107
Pension Benefit Balance Sheet108
Unfunded Actuarial Accrued Liability
Employer Contribution Requirements Calculation109
Low-Default-Risk Obligation Measure (LDROM)110
Health Insurance Premium Subsidy Valuation
Administrative Expenses
Employer Contribution History112
Actuarial Balance Sheet 114

The purpose of an actuarial valuation is to determine the funding progress and the contribution requirements of a retirement plan at a specific point in time. The System conducts two studies annually for the fiscal year ending June 30: one study evaluates the ratio of assets to liabilities for pension benefits for members and their beneficiaries; the other study evaluates the same ratio for health insurance premium subsidy benefits. The studies establish the funding status of the System and determine the annual contribution requirements to fund the benefits.

FUNDING STATUS

The funded status of the System is examined over a span of several years to determine if progress is made. When the assets equal or exceed the liabilities, the Plan is funded at 100% or more and is considered fully funded; otherwise, it is underfunded.

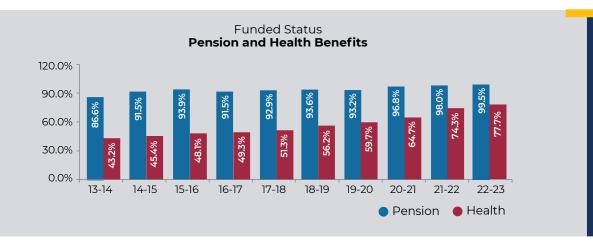

PENSION BENEFITS

A 10-year history of the System's funded status for pension benefits is provided below. Although the funding ratios decreased for several years following the investment losses sustained in the 2008-2009 Great Recession, the results of the actuarial studies since that period reflect improved, stable funding progress overall.

As of June 30, 2023, the funded status for pension benefits is 99.5%, an increase of 1.5% from the prior year. The increase in the funded ratio was primarily the result of a higher than expected return on the Valuation Value of Assets and changes in assumptions, partially offset by higher than expected COLA increases for retirees and beneficiaries and higher than expected salary increases for active members. Details on the determination of the actuarial value of assets for the year are available in Section 2 of the June 30, 2023 Actuarial Valuation and Review of Retirement Benefits.

HEALTH INSURANCE PREMIUM SUBSIDY BENEFITS

The System began pre-funding health insurance premium subsidy benefits in 1989. A 10-year history of the System's funded status for health benefits is included in the chart below. As of June 30, 2023, the funding status of health subsidy benefits increased from 74.3% to 77.7%, an increase of 3.4%, primarily because, on average, health premiums and subsidies were lower than projected for 2023-2024. Details on the factors which contributed to the increased funding status are available in Section 2 of the June 30, 2023 Actuarial Valuation and Review of Other Postemployment Benefits.

HOW A VALUATION IS CONDUCTED

In accordance with the Board's actuarial funding policy, the Entry Age Normal Cost is the actuarial funding method used to determine the contribution requirements to fund the benefits. To determine the cost of benefits, an actuarial valuation takes into consideration the Plan's provisions, participant data, and various actuarial assumptions.

ACTUARIAL ASSUMPTIONS

The System's actuary recommends assumptions – both demographic and economic – based on the Plan's actual experience, economic forecasts, and other factors. The Board adopts these assumptions in consultation with the actuary. Demographic assumptions explore the probabilities of when and how long members will receive the various types of benefits, e.g., the likelihood of retirement, disability, and death. Economic assumptions are based on factors that affect the value of benefits or the value of a plan's assets, e.g., inflation, rate of salary increases, and assumed investment return.

Every three years, the assumptions are examined to determine if any adjustments are necessary for future valuations. Examples of assumptions used for the valuation period ending June 30, 2023 are provided in the subsequent tables.

Average Life Expectancy for Pensioners (Age = 65)

Service Retiree	21.5 years*
Disabled Retiree	20.0 years*
Surviving Spouse/ Domestic Partner	22.7 years**

^{*}The average is calculated based on a proportion of 90% male and 10% female in the current retiree population.

Rate of Inflation

^{**}The average is calculated based on a proportion of 5% male and 95% female in the current beneficiary population.

Rate of Salary Increases

Inflation at 2.50% per year; plus 0.50% "across the board" increases; plus the following Merit and Promotion increases based on years of service.

Years of Service	Additional Salary Increase
Less than 1	9.00%
1 - 2	7.00%
2 - 3	6.50%
3 - 4	5.50%
4 - 5	4.00%
5 - 6	2.75%
6 - 7	2.00%
7 - 8	2.00%
8 - 9	2.00%
9 - 10	2.50%
10 - 11	1.90%
11 - 12	1.80%
12 - 13	1.70%
13 - 14	1.60%
14 - 15	2.00%
15 - 16	1.40%
16 - 17	1.30%
17 - 18	1.20%
18 - 19	1.20%
19 - 20	1.60%
20 - 25	1.00%
25 & Over	0.90%

Investment Rate of Return	
Inflation	2.50%
Plus Portfolio Expected Real Rate of Return	5.80%
Less Expense Adjustment	(0.10%)
Less Adjustment to Expected Geometric Real Rate of Return	(0.75%)
Less Risk Adjustment	(0.45%)
Net Investment Return*	7.00%
*Net of Investment Expenses Only	

The investment return assumption is comprised of two primary components: inflation and real rate of investment return, adjusted for expenses and risk.

PENSION BENEFIT BALANCE SHEET

Cost of living adjustments and individual salary assumptions are used to project the dollar amount of benefits to be paid. The total liability is then reduced to today's dollar terms using the investment rate of return assumption. Once the liabilities of the System are computed, the valuation study projects the member and employer contributions expected to be received using the individual salary increase assumptions. The contributions are then reduced to today's dollar terms using the investment rate of return assumption.

The projected future contributions are considered assets of the System, along with assets currently invested by the System. For purposes of determining the contributions to the System, any investment gains and losses established after July 1, 2008 will be recognized over a seven-year period and the actuarial value of assets will be further adjusted, if necessary, to be within 40% of the market value of assets.

The Actuarial Balance Sheet comparing the System's assets and liabilities as of June 30, 2023 is available on page 114.

UNFUNDED ACTUARIAL ACCRUED LIABILITY

An Unfunded Actuarial Accrued Liability (UAAL) of a retirement system occurs when a system's actuarial liability is greater than the actuarial value of its assets, yielding a funded ratio less than 100%. As of June 30, 2023, the Actuarial Balance Sheet on page 114 shows the UAAL for pension benefits for all tiers to be approximately \$126 million. The UAAL for health insurance premium subsidy benefits for all tiers is approximately \$849 million.

Numerous variables, including pension benefit increases and actuarial losses, generate or increase the UAAL. Actuarial gains or losses arise from differ-

ences between the actual experience of a pension system and the actuarial assumptions used to project the system's funding requirements. An example would be if combined members' salaries increased more than what was assumed.

The gains and losses reflected in the UAAL must be amortized over a period of time in accordance with the Board's Actuarial Funding Policy and are a key component in determining the City's required contribution to the System each year.

EMPLOYER CONTRIBUTION REQUIREMENTS CALCULATION

The City's General Fund, Harbor Department, and Airport Department's contributions to the System are composed of two parts: (1) the Entry Age Normal Cost; and (2) the contribution to amortize the unfunded liability.

ENTRY AGE NORMAL COST

The Entry Age Normal Cost contribution is the amount the employer would contribute for a hypothetical new entrant into the System. This amount would theoretically be sufficient to fully fund a member's retirement benefit on the date of retirement if all assumptions were realized and no benefit changes were made.

AMORTIZATION OF THE UAAL

In March 2011, voters approved a Charter amendment that allows the Board to set the funding policy, consistent with its plenary authority to administer the System. Prior to this, the amortization policy was prescribed in the City Charter. Since then, the funding policy has been revised periodically by the Board. The current funding policy may be found at www.lafpp.com/policies.

Under the current policy, the entire amount of the annual UAAL contributions required to be made by the City, Harbor Department, and Airport Department for each tier, is determined in proportion to the covered payroll for that tier. The UAAL amortization payment rate for each employer (i.e., the City, Harbor Department, or Airport Department), is equal to the total of all annual amounts required to amortize the UAAL for all tiers and divided by the total covered payroll for the respective employer. As Tier 1 does not have any active members, there are no UAAL contributions collected. For all other tiers, it is amortized as a level percent of payroll. Actuarial gains or losses are amortized over 20 years; changes in actuarial assumptions and cost methods are amortized over 20 years; and Plan amendments are amortized over 15 years. In the event of an actuarial surplus, 30-year amortization is used.

With this information, the actuary computes the employer contribution requirements for pension benefits.

LOW-DEFAULT-RISK OBLIGATION MEASURE (LDROM)

Beginning with the June 30, 2023 valuation, the Plan is required to report on the LDROM under Actuarial Standard of Practice No. 4. The LDROM is calculated using a discount rate based entirely on high quality bond yields instead of the expected return on the Plan's diversified investment portfolio. As of June 30, 2023, the LDROM for the Plan is \$42.1 billion. The difference between the Plan's Actuarial Accrued Liability for pension benefits of \$26.6 billion and the LDROM of \$42.1 billion can be thought of as representing the expected savings from investing in the Plan's diversified portfolio compared to investing only in low-default-risk securities.

Employer Normal Cost Pension Contribution Requirements 2024-25*

(as a percentage of Plan member salaries)

Tier 1	N/A
Tier 2	24.16%
Tier 3	17.71%

^{***} Excluding the City & Airport Department.

^{****} Excluding the City & Harbor Department.

HEALTH INSURANCE PREMIUM SUBSIDY VALUATION

The health insurance premium subsidy valuation utilizes the same actuarial assumptions as the pension benefits valuation, with the addition of expected medical inflation and other health benefit-specific assumptions. Medical costs continue to increase at a faster pace than general inflation. Assumptions in the June 30, 2023 actuarial valuation included medical trend rate increases of 7.25% for non-Medicare premiums and 6.50% for Medicare premiums in Fiscal Year 2023-24, then decreasing by 0.25% each year for eleven years for non-Medicare premiums and eight years for Medicare premiums, until both reach an ultimate rate of 4.50%. Using the same actuarial methods for pension benefits, the Actuarial Balance Sheet for health insurance premium subsidy benefits is shown on page 114. The contributions to fund the health insurance premium subsidy benefits are below.

Health Insurance Premium Subsidy Contribution Requirements 2024-25* (as a percentage of Plan member salaries)

Tier 1	N/A
Tier 2	8.10%
Tier 3	9.81%
Tier 4	9.83%
Tier 5	9.53%
Tier 6	12.14%
Harbor Port Police – Tier 5	5.41%
Harbor Port Police – Tier 6	5.94%
Airport Police – Tier 6	7.33%

^{*} Contributions to be made on July 15, 2024. Rates do not include amounts allocated for administrative expenses.

Health Insurance Premium Cost Trend Rates

(applied to calculate following year's premiums)

Fiscal Year	Non-Medicare	Medicare
2023-2024	7.25%	6.50%
2024-2025	7.00%	6.25%
2025-2026	6.75%	6.00%
2026-2027	6.50%	5.75%
2027-2028	6.25%	5.50%
2028-2029	6.00%	5.25%
2029-2030	5.75%	5.00%
2030-2031	5.50%	4.75%
2031-2032	5.25%	4.50%
2032-2033	5.00%	4.50%
2033–2034	4.75%	4.50%
2034 and later	4.50%	4.50%

ADMINISTRATIVE EXPENSES

Beginning with the June 30, 2014 valuation, the assumed investment rate of return excludes the Plan's administrative expenses. This change was made in order to implement new Governmental Accounting Standards Board (GASB) financial reporting requirements (GASB Statements 67 and 68) so that the same investment return assumption can be used for both funding and financial reporting purposes. The actuary now recommends an explicit assumption to account for the Plan's administrative expenses.

Contribution Amount Allocated for Administrative Expenses*

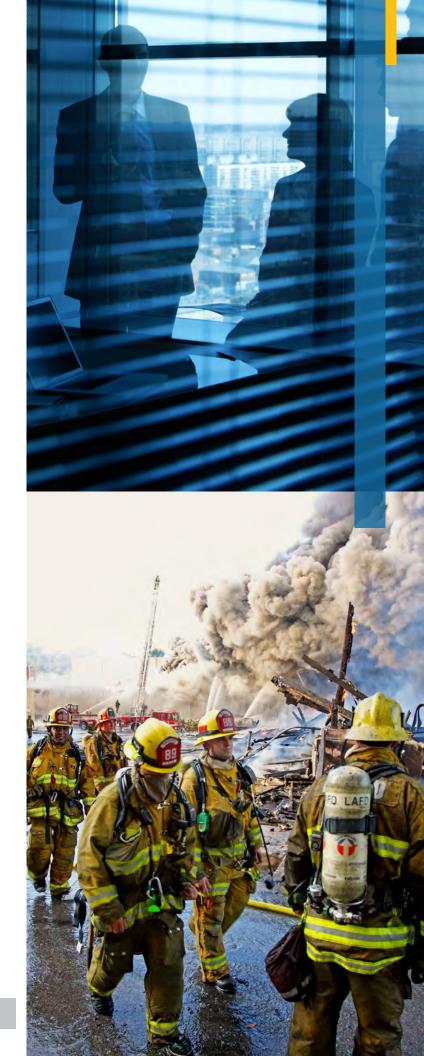

Pension	1.28%
Health	0.13%

^{*} Percent of total payroll. Contributions to be made on July 15, 2024.

EMPLOYER CONTRIBUTION HISTORY

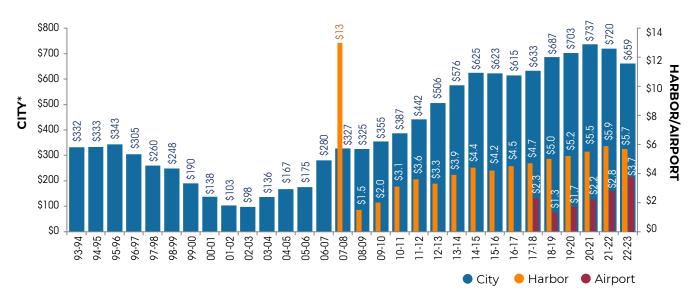

A history of employer contributions is illustrated in the following charts on page 113. Over the last two decades, the City's contribution to the System for pension and health benefits has grown, although there were periods when the contribution amount was decreased due to the System's actuarial surplus status.

After the inclusion of Harbor Port Police in January 2006, the Harbor Department began making contributions to the System in Fiscal Year 2007-08. Since its first-year contribution, subsequent contributions have been stable. Airport Police became members of the Plan beginning in January 2018, and the Airport Department began making contributions to the System in Fiscal Year 2017-18.

Employer Contribution Amounts

(in millions)

*The City's contribution amount excludes Excess Benefit Plan funding from FY 2010-11 to the present.

MEMBERSHIP STATISTICS

FIRE AND POLICE PENSION PLANS

As of June 30, 2023, the System is composed of six tiers. Benefits are based on the member's pension tier, pension salary base, and years of service. In addition, the System provides for disability benefits under certain conditions and benefits to eligible survivors.

Members hired pursuant to the provisions of Article XI 1/2 of the 1925 City of Los Angeles Charter are known as "fluctuators." Fluctuator pensioners receive 50% of the current salary received by the classification from which they retired. Such beneficiaries are included in Tier 1 for purposes of our actuarial valuations.

Members hired from July 1, 1925 through January 28, 1967 participate in Tier 1 (formerly Article XVII). Tier 2 (formerly Article XVIII) includes members hired from January 29, 1967 through December 7, 1980, and Tier 1 members who elected to transfer during an enrollment period.

Tier 3 (formerly Article XXXV, Plan 1) consists of members hired from December 8, 1980 through June 30, 1997. Members hired from July 1, 1997 through December 31, 2001 are in Tier 4 (formerly Article XXXV, Plan 2). Tier 4 also includes members who elected to transfer from Tier 3 during an enrollment period. Additionally, Tier 4 members hired from July 1, 1997 through December 31, 1997 were given the opportunity to transfer to Tier 3 during an enrollment period.

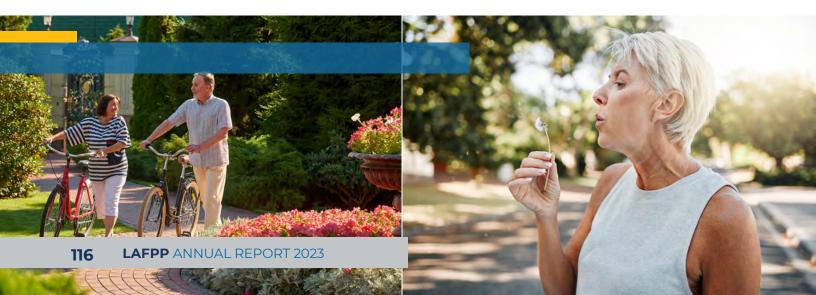

Tier 5 includes members hired from January 1, 2002 through June 30, 2011. Active members in Tiers 2 – 4 were allowed to transfer to Tier 5 during an enrollment period.

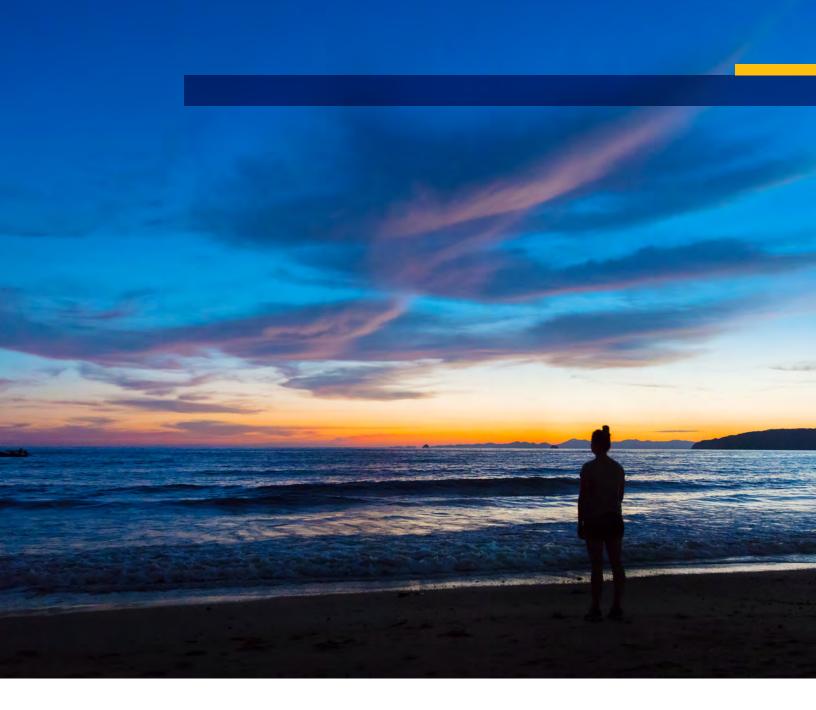

Additionally, all eligible sworn members of the Harbor Department hired on or after January 8, 2006 become members of the Fire and Police Pension System. Members hired from January 8, 2006 through June 30, 2011 are in Tier 5. Those hired prior to January 8, 2006 were provided the option to transfer to Tier 5 from the Los Angeles City Employees' Retirement System (LACERS) from January 8, 2006 to January 5, 2007.

Tier 6 consists of all new members hired on or after July 1, 2011.

On July 1, 2012, the Department of General Services, Office of Public Safety (OPS) was consolidated into the Los Angeles Police Department (LAPD). As a result, OPS employees who successfully transitioned to regular LAPD sworn classifications could make an election to opt out of LACERS and become Tier 6 members of the Fire and Police Pension System. The opt-out election period expired on December 12, 2014.

All eligible sworn members of the Airport Department hired on or after January 7, 2018 become members of the Fire and Police Pension System, Tier 6. Airport Peace Officers hired prior to January 7, 2018 were provided the option to transfer to Tier 6 from LACERS effective January 7, 2018.

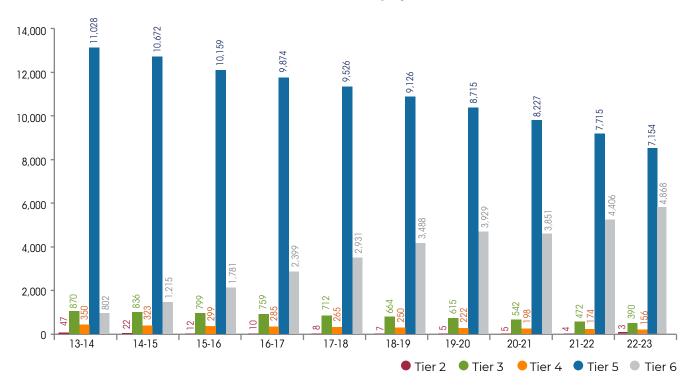

DEFERRED RETIREMENT OPTION PLAN

Effective May 1, 2002, the System began administering a Deferred Retirement Option Plan (DROP). DROP is a voluntary program whereby a member with a minimum of 25 years of service (members of Tiers 3, 5, and 6 must also be at least age 50) may file for a service pension but continue to work and earn salary and receive benefits as an active employee. The monthly service pension benefit is deposited into an interest-bearing account (5% per annum), payable upon exiting DROP. Participation in DROP is limited to a maximum of five years.

All eligible members of the Fire and Police Pension System, except the Fire and Police Chiefs, may elect to participate in DROP. The intent of the program was to retain police officers and lengthen their careers due to significant challenges faced by the City in police retention and recruitment. In addition, DROP must be cost neutral with regard to plan funding. Administrative Code §4.2100 requires the City to conduct an actuarial study at least every five years to determine whether the program is maintaining cost neutrality and/or meeting the City's goal of retaining sworn personnel.

COST OF LIVING ADJUSTMENTS - EFFECTIVE JULY 1

The size of any year's Cost of Living Adjustment (COLA) is based on the Los Angeles Area Consumer Price Index (CPI) for All Urban Consumers, as published by the U.S. Bureau of Labor Statistics for the previous one-year period ending March 1. Tiers 1 and 2 members have an uncapped COLA, while members in Tiers 3 – 6 have a 3% maximum COLA. However, Tiers 5 and 6 members have a COLA bank to "store" amounts above the 3% maximum.

NOTE: For years in which the COLA as shown in the chart is below 3%, members in Tiers 5 and 6 may receive up to 3% depending on their available COLA bank balance.

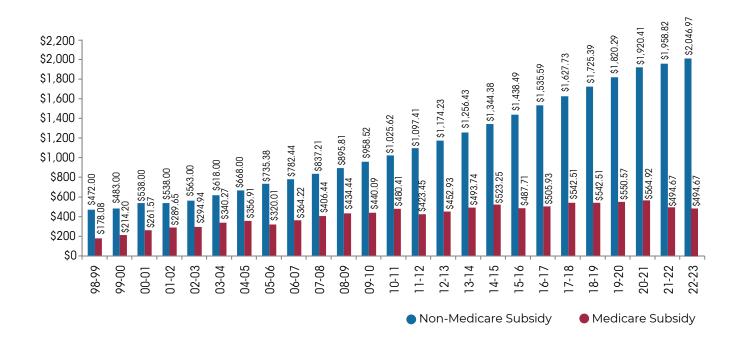

MAXIMUM HEALTH INSURANCE PREMIUM SUBSIDY FOR RETIRED MEMBERS

In 1974, voters approved a Charter amendment to provide a health insurance premium subsidy benefit for pensioners. Effective July 1, 2006, the Los Angeles Administrative Code § 4.1154(e) grants the Board of Fire and Police Pension Commissioners the authority to raise the maximum non-Medicare health insurance premium subsidy for retired members on an annual basis. The Board may raise the subsidy up to the lesser of 7% or the approved actuarially assumed rate for medical inflation for pre-65 health benefits for the fiscal year. Per the City Charter, the subsidy was previously linked to the subsidy for active members and retired civilians.

The maximum Medicare health insurance premium subsidy for retired members is equivalent to the highest single-party Medicare plan premium offered by the Los Angeles City Employees' Retirement System.

MEMBER OUTREACH

One of the Plan's fundamental duties is to communicate benefits information to members and other stakeholders. Information is disseminated through written communications such as Summary Plan Descriptions (SPDs), benefits handbooks, newsletters, targeted email notifications, annual reports, and the Department's online resources (e.g., website, social media).

Staff also provides benefits education by phone, in-person, video conference, and by attending various outreach events with members and their beneficiaries. Staff interacted with 3,448 members in 96 virtual and in-person sessions. Our participation at various events provides an opportunity to speak directly with members to help them understand their retirement benefits. As part of our strategic goals, we are committed to enhancing our customer service, communications efforts, and outreach to members. A summary of the events conducted over the last two fiscal years is provided below.

	Fiscal Y	ear 21-22	Fiscal Year 22-23		
Outreach Events	Number of Events	Members Reached	Number of Events	Members Reached	
New Recruit Talks Staff develops and conducts presentations specifically for new hires of the Fire, Police, Harbor, and Airport Departments.	1	54	14	462	
Benefits Presentations Staff conducts benefit presentations virtually and on location at fire stations, rollcalls, and training days for members in various tiers and/or stages of their careers, and in-house focus groups.	31	477	43	831	
Financial Planning Education Seminars/Webinars Together with the Financial Planning Education Consultant, staff holds seminars and webinars to assist members at specific stages of retirement planning.	10	165	7	203

FINANCIAL

This section provides historical perspective, context, and detail to assist in utilizing the Financial Statements, Notes to the Financial Statements, and Required Supplementary Information, to understand and assess the System's economic condition.

The statistical information provided here is divided into two main categories: Financial Trends Information and Operating Information.

Financial Trends Information is intended to assist readers in understanding how the System's financial position has changed over time. The "Changes in Fiduciary Net Position – Pension Plan" and "Changes in Fiduciary Net Position – Health Subsidy Plan" present additions by source, deductions by type, and the total change in fiduciary net position for the last ten fiscal years. The "Pension Benefit Expenses by Type" presents a ten-year history of the total benefit amounts for service, disability, and survivor pensioners.

Operating Information is intended to provide contextual information about the System's operations and membership, and to assist readers in using financial statement information to understand and evaluate the System's fiscal condition. "Retired Members by Type of Pension Benefit" and the "Retired Members by Type of Health Subsidy Benefit" present the dollar levels for each benefit as of June 30, 2023.

FINANCIAL TRENDS INFORMATION

Schedule of Additions by Source – Pension Plan (in thousands)

	Employer Contributions					
Fiscal Year	Dollars	% of Annual Covered Payroll	Member Contributions	Net Investment Income (Loss)*	Other Income (Loss)	Total Income (Loss)

SECTION 7

Legal	.142
Recently Concluded Litigation	.143

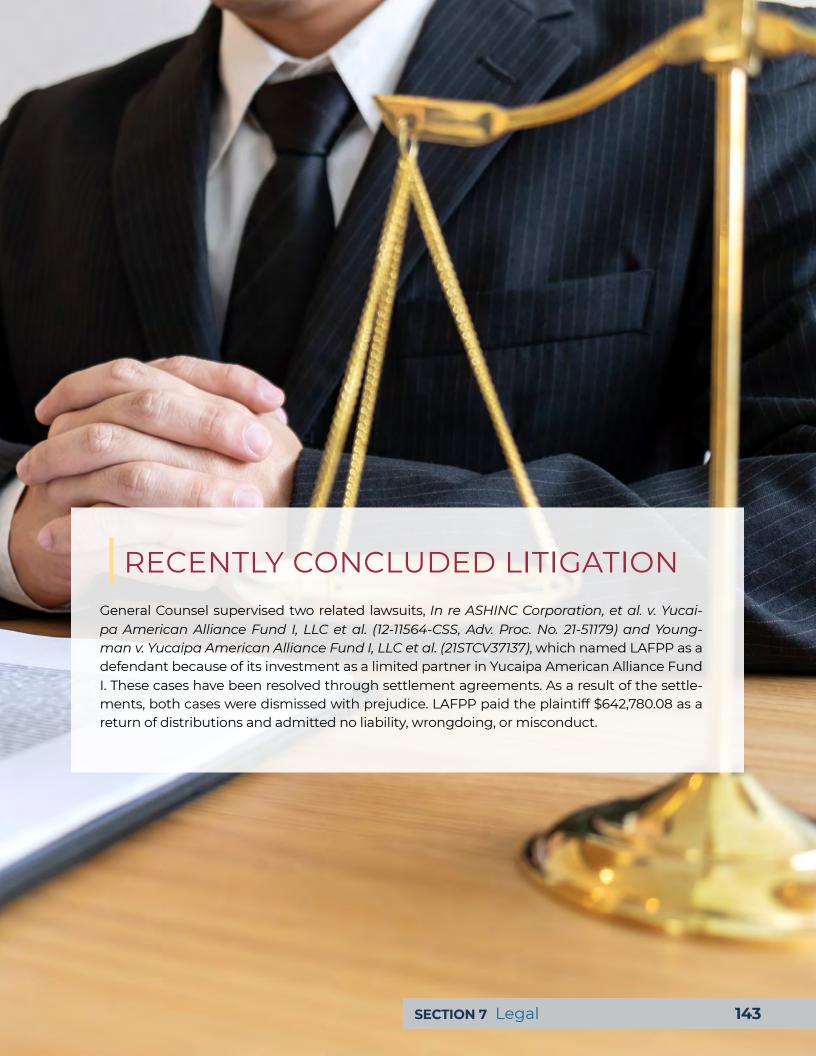

LEGAL

Under Los Angeles City Attorney Hydee Feldstein Soto, the Public Pensions General Counsel Division of the City Attorney's Office ("General Counsel") serves as legal counsel to the Department and the Board of Fire and Police Pension Commissioners ("Board"). Managing Assistant City Attorney Anya Freedman leads the Division, assisted by Deputy City Attorneys Joshua Geller, Miguel Bahamon, Sheri Cheung, Gina Di Domenico, and Ali de Rivera, and by Administrative Coordinator Nicole Paul.

General Counsel provided advice and assistance to the Board and the Department on a variety of subjects, including fiduciary obligations, the Ralph M. Brown Act, the California Public Records Act, pension benefit issues, Deferred Retirement Option Plan (DROP) issues, tax law compliance, ethics laws and regulations, investment agreements and other contracts, data privacy, real estate operational issues regarding the Department's headquarters building, and disability pension applications.

General Counsel also supervises and assists the Board in the selection of outside law firms that are engaged to provide the Department with advice in certain specialized areas, such as federal and state tax laws, real estate and alternative investment transactions, cybersecurity and data privacy, and with occasional representation in complex or specialized litigation matters, such as bankruptcy cases and securities fraud cases.

General Counsel also provides legal counsel to the Board of Administration of the Los Angeles City Employees' Retirement System and the Retirement Board of the Water and Power Employees' Retirement Plan.

MISCELLANEOUS BENEFIT PROVISIONS

11. Basic Death Benefit

Applicable to Tiers 3 - 6

Beneficiary receives a refund of contributions with interest. In addition, if the member had at least one year of service, the Qualified Survivor receives a limited pension payable in monthly installments as follows: for each year of service completed by the member, the Qualified Survivor receives two payments equal to one-half of the member's Final Average Salary, not to exceed 12 monthly payments for six or more years of service.

12. Deferred Pension Option

Applicable to Tiers 3, 5, and 6

Tier 3: Upon termination, the member can elect the Deferred Pension option if he/she has at least 10 years of service and leaves his/her contributions in the Fund. At age 50, the member is entitled to receive a Service Pension.

Tiers 5 and 6: Upon termination, the member can elect the Deferred Pension option if he/she has at least 20 years of service and leaves his/her contributions in the Fund. At age 50, the member is entitled to receive a Service Pension using the Tier 3 Service Pension percentages.

13. Deferred Retirement Option Plan (DROP)

Not applicable to Tier 1

Tiers 2 and 4: At least 25 years of service

Tiers 3, 5 and 6: At least 25 years of service and at least age 50

The member must be on an active duty/working status at the time of DROP entry.

While in DROP, the member's monthly pension, including any applicable cost of living adjustments (maximum of 3% each year for all Tiers), is posted to a nominal account that is credited with a guaranteed annual interest rate of 5%.

Members who entered DROP prior to February 1, 2019 may participate for a maximum of five years, after which they are required to terminate sworn employment and exit DROP.

Applicable to members who enter DROP on or after February 1, 2019

Participation in DROP will be suspended for any calendar month in which a participant does not spend at least 112 hours on "active duty" status.

Exception: If a participant sustains a serious injury on duty and is admitted to the hospital for a minimum of three consecutive days as a direct result of that injury, their participation will not be suspended during the first 12 calendar months following the date of injury.

If a member's DROP participation is suspended, he/she is eligible to participate in DROP for a maximum of 30 additional months beyond his/her original five year/60-month participation period. The participation period can only be extended for as many months as the member's participation was suspended and no interest is credited to the member's DROP account following the initial five year/60-month participation period.

Death of a DROP Member

For the purpose of survivor benefits, DROP members are considered retired. Qualified Survivors receive the benefits outlined in Section 6 - Death After Service Retirement, while the proceeds in the member's DROP account are paid to the named DROP beneficiary.

In the event of a service-connected death, the Qualified Surviving Spouse/Domestic Partner has the option to forfeit the member's DROP account and collect a monthly benefit as outlined in Section 4 - Service-Connected Death.

14. Optional Form of Benefit for Qualified Surviving Spouse (QSS) / Qualified Surviving Domestic Partner (QSDP)

Applicable to Tiers 3 - 6

At any time prior to the first payment of a Service or Disability Pension, or entering DROP, the member may elect a higher QSS/QSDP benefit with a corresponding actuarial reduction in his/her retirement benefit.

MISCELLANEOUS BENEFIT PROVISIONS, CONT.

15. Public Service Purchase (PSP) Program

Not applicable to Tier 1

Members may purchase service credit for time served in the military or with other public agencies, subject to requirements and limitations established by the City Council.

Purchased service must be for a minimum of six months, but no more than four years of full time, uninterrupted service. Purchased service will only count toward increasing the member's monthly pension allowance and any survivorship benefits.

Purchases must be initiated and finalized prior to entering DROP or retiring, whichever occurs first.

16. Return of Contributions with Interest

Tiers 1 and 2: On termination or death if no other benefits are payable.

Tiers 3, 5, and 6: On termination or death if no other benefits are payable (except Basic Death Benefit). Tier 4: Upon death if no other benefits payable (except Basic Death Benefit). No refund upon termination.

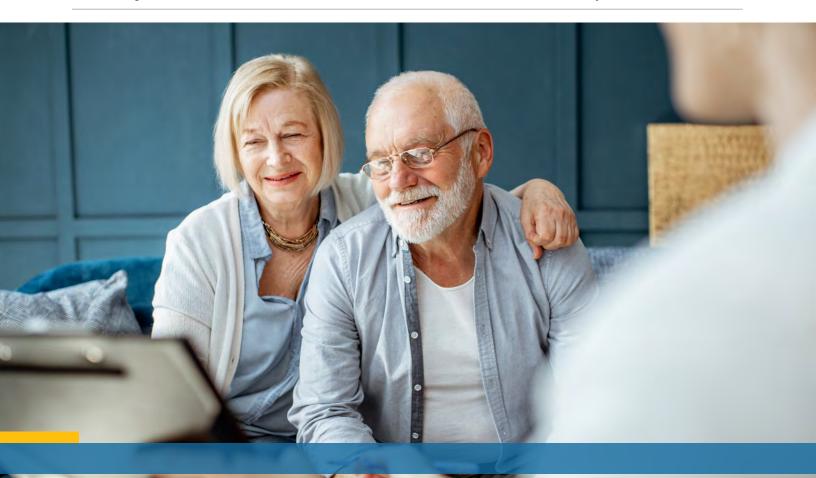

17. Survivor Benefit Purchase Program

A retired member may make a one-time, irrevocable election to purchase a survivor benefit for a spouse married in retirement or a domestic partner declared/registered in retirement by taking an actuarial reduction in his/her retirement benefit.

18. Opt-In Contribution

Applicable to Tiers 2 - 5

Members in Tiers 2 - 5 who: (1) enter DROP or retire on or after July 15, 2011 and (2) elected to make the additional 2% opt-in contribution will receive a non-frozen health subsidy benefit in retirement. The additional pension contribution supports the funding of the retiree health benefits and will cease once the member has contributed for 25 years or retires.

There are no reciprocity agreements between outside agencies and the Fire and Police Pension Plan.

RECIPROCITY is an agreement between public retirement systems, to allow members to move from one public employer to another within a specific time limit, without losing some valuable retirement and benefit rights.

22. Excess Benefit Plan (paid by the City's General Fund)					
Plan to supplement the benefits of certain highly compensated pensioners to the extent such benefits are reduced by the limitations on benefits imposed by Section 415 of the Internal Revenue Code	Yes	Yes	Yes	Yes	No

The Internal Revenue Code (IRC) Section 415(b) contains the provisions of federal law which limit the amount of annual retirement benefits payable directly from a plan sponsor for qualified defined benefit pension plans, such as the Los Angeles Fire and Police Pension Plan (LAFPP). The excess benefit limit typically only impacts highly compensated employees who have accrued significant retirement benefits. Under certain circumstances, any benefits in excess of this limit may be paid through an Excess Benefit Plan.

The IRC Section 415(b) limits the distribution amount paid to an individual from all of the plan sponsor's qualified defined benefit plans. The City created an Excess Benefit Plan (EBP) to allow members of Tiers 1 through 5 to receive a full formula-based retirement allowance, despite the LAFPP benefit exceeding the maximum IRC limit. The pensioner's total monthly retirement benefit will not change. The affected pensioners will receive one payment from LAFPP and the EBP payment directly from the City Controller's Office.

Members of Tier 6 are not included in the City's Excess Benefit Plan, which is authorized for Tiers 1-5 of the LAFPP by Division 4, Chapter 23 of the Los Angeles Administrative Code. Los Angeles City Charter Section 1720 restricts benefits payable to Tier 6 members to the IRC Section 415 limitations.

Disclaimer

The "Summary of Plan Provisions" describes in informal language, the provisions of Tiers 1 - 6. The intent is to summarize legal texts in a clear and concise manner. If there is a difference between this guide and the legal text outlined in the Los Angeles City Charter, the Los Angeles Administrative Code, the Internal Revenue Code, or other laws, the legal text prevails.

SECTION 9 MILESTONES

MILESTONES

1899-1901

The California State Legislature enacted legislation in 1899 that enabled cities and counties to establish pension systems for police officers and firefighters. The City of Los Angeles authorized a system for police officers effective June 7, 1899 and for firefighters effective June 10, 1901. It provided for a pension at age 60 after 20 years of service, at an amount of one-half of the salary of the rank held for one year preceding retirement. Disability and survivor benefits were also provided. Member contributions were set at \$2 per month.

1911-1919

In 1911, a Los Angeles City Charter (Charter) amendment empowered the Los Angeles City Council (City Council) to make changes in the pension systems. Effective September 16, 1913, the City Council adopted an ordinance that lowered the minimum retirement age to 55 and eliminated member contributions. In 1919, ordinances were adopted allowing retirement after 20 years of service regardless of age.

1922

Fire and police pension plans were merged into one system.

1923-1925

The System began funding pension benefits on an actuarial basis effective January 29, 1923 and a provision was added to increase pensions for members with more than 20 years of service based on a formula of 1-2/3% for each year of service over 20, up to two-thirds of the salary of the rank held at retirement. The new City Charter that became effective July 1, 1925 added a provision that Service and Disability Pensions would remain fixed amounts.

1927

Members entering service after January 17, 1927 would receive a pension after 25 years of service equal to 50% of the average salary during the three years preceding retirement, plus 1-2/3% for each of the next 10 years of service. A monthly limit of \$1,800 for Service Pensions was established. Member contributions to the System were set at 4% of salary. Pensions for widows were made fixed amounts.

1933

The actuarial funding requirements were eliminated and the System was placed on a "pay-as-you-go" basis effective May 15, 1933.

Members hired after January 17, 1947 could retire after 20 years of service with a pension equal to 40% of the average salary of the last three years of service, plus an additional 2% for each of the next five years of service, and 1-1/3% for each of the next 10 years of service. A maximum pension of two-thirds of the average salary was retained, with a cap based on the salary level of a Fire Battalion Chief or Police Captain. Member contributions were increased from 4% to 6% of salary.

Effective June 16, 1947, a Charter amendment created a Nonservice-Connected Disability Pension of 40 percent of the highest salary attached to the rank of firefighter or police officer; an equal amount was to be paid to any surviving spouse, with additional percentages allowed for unmarried minor children under the age of 18.

1957

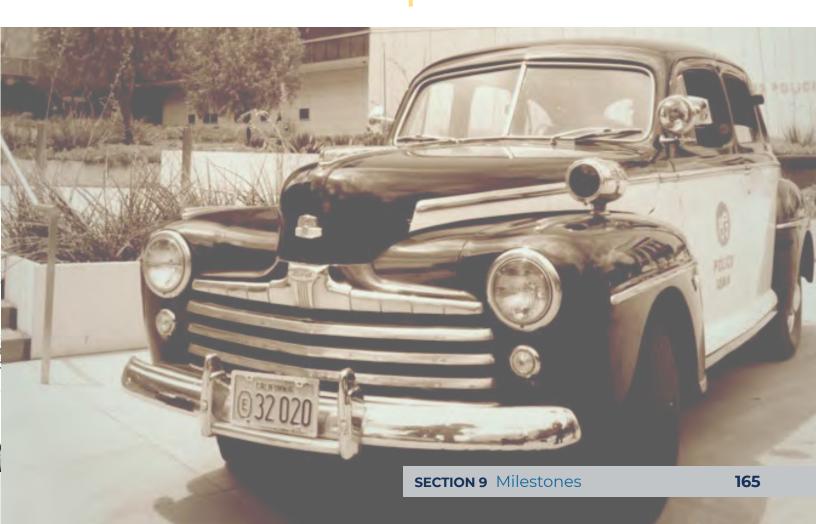

The maximum limit attached to rank for Service Pensions was removed effective April 18, 1957.

1958

The California Supreme Court ruled that the 1925 Charter provisions for fixed pensions did not apply to members employed prior to July 1, 1925, nor to surviving spouses of members employed prior to January 17, 1927.

1959

Effective May 6, 1959, the System was again funded on an actuarial basis with a 50-year amortization period for the unfunded liabilities. Investment provisions were changed to permit investment of up to 35% of fund assets in common stocks.

A one-time cost of living increase was provided for all member and surviving spouse pensions based on service-connected disability or death.

1967

Tier 1 (formerly Article XVII) was extensively amended, and a new Tier 2 pension plan (formerly Article XVIII) was adopted effective January 29, 1967, providing:

- A pension equal to 55% of the final monthly salary rate at retirement with 25 years of service, plus an additional 3% for each year of service over 25, up to a maximum pension of 70% of salary at retirement with 30 years of service;
- 2. A 2% cap on the annual cost of living adjustment to all member and surviving spouse pensions that were based on length of service; and
- 3. A minimum pension of \$250 per month to be adjusted each year by the cost of living formula.

Other changes included the extension of the amortization period for the unfunded liabilities to 70 years and changes to the investment authority to provide for mortgage investments and public improvement financing.

1968

Overtime compensation was excluded from the computation of contributions and benefits under Tiers 1 and 2.

1969

Amendments to Tiers 1 and 2 effective May 2, 1969 applied cost of living adjustments to Disability and Survivor Pensions. Service Pensioners were allowed to apply for return-to-active duty under certain conditions and restrictions.

The authorized limit for common stock investments was raised to 50% of fund assets.

Tiers 1 and 2 were amended effective July 1, 1971 to remove the 2% per year cost of living ceiling from all eligible pensions and pegged increases to the Consumer Price Index; to increase the minimum pension to \$350 per month; to grant pension credit for partial years of service; and to add two elected employee members to the Board of Pension Commissioners.

1974

Tiers 1 and 2 amendments enabled the City Council to adopt ordinances providing health insurance premium subsidy benefits and other programs for eligible pensioners.

1975

Amendments to Tiers 1 and 2 allowed cost of living adjustments for Service-Connected Disability Pensions on the July 1 following the date of retirement. Certain waiting periods for those eligible to receive this adjustment were eliminated.

The health insurance subsidy for retired members was paid for the first time this year beginning with the April 30, 1975 pension roll. Approximately \$61,000 was expended for this purpose.

1976

LAFPP began providing health insurance premium subsidies to eligible retired members for their dependent's health insurance coverage.

1977

The mandatory retirement age provision of Tier 1 was eliminated effective April 15, 1977.

1980

A new Tier 3 Safety Members' pension plan, (formerly Article XXXV, Plan 1) was created effective December 8, 1980.

1981

Extensive revisions to the investment provisions of the Charter provided for:

- 4. The investment of up to 70% of fund assets in common stock and up to 25% of the 70% without dividend record and registration on a national securities exchange;
- 5. The investment of 35% of fund assets in short-term securities;
- 6. The appointment of a securities custodian bank;
- 7. A requirement to retain investment advisors registered under the Investment Advisor Act;
- 8. The selling and repurchasing of covered call options; and
- Authority to conduct transactions and exchanges of securities without specific prior approval from the Board of Pension Commissioners, within established guidelines.

Significant revisions to Tiers 1 and 2 provided a 3% cap on the cost of living adjustment for all future service earned by active members and a refund of member contributions upon termination.

Cost of living adjustments were prorated for the first year of retirement.

Paramedics and civilian ambulance drivers were transferred from the Los Angeles City Employees' Retirement System to Tier 3.

1983

Tiers 1 and 2 active members were no longer required to contribute to the Pension System upon completion of 30 years of service.

1984

The City Charter was amended to permit banks and insurance companies to act as investment advisors to the System.

1985

Authority was extended to include investment in real estate by all City of Los Angeles pension systems.

1989

The System began pre-funding the health insurance premium subsidy benefits.

On April 26, 1989, in the case of the United Firefighters of Los Angeles City vs. the City of Los Angeles, the California Court of Appeals upheld the Los Angeles County Superior Court's judgment for the plaintiffs. As a result, the 3% cap on cost of living increases instituted in 1982 for Tier 1 and 2 members was lifted.

1990

A series of measures were enacted that allow the City to protect the integrity of the System in response to new tax code regulations. The waiting period was removed for cost of living adjustments for surviving spouses of members hired before December 8, 1980 who die in the line of duty.

California Proposition 162, or the California Pension Protection Act of 1992, was on the November 3, 1992 ballot as an initiated constitutional amendment, where it was approved.

Proposition 162 made several changes to California's constitution relating to public retirement systems:

- It gave the board of each public pension system complete authority for administration of the system's assets and for the actuarial function.
- Each board is required to continue to provide benefits to members of the system and their beneficiaries, minimize employer contributions, and pay reasonable administrative costs. Proposition 162, however, specified that each board is to give highest priority to providing benefits to members and their beneficiaries.
- 3. Prop 162 specified that the Legislature cannot change terms and conditions of board membership, for boards with elected employee members, unless a majority of the persons registered to vote in the jurisdiction of the retirement system approves the change. For example, a change in a county retirement system's board membership would require a countywide vote.

1993

The Board of Pension Commissioners was given authority to increase investments under the "prudent person" provisions of the Charter from 25% to 50% of the stock portfolio.

Retired Tier 2 members may be recalled for up to one year after retirement.

1995

The amount of salary to be used to calculate pension benefits was capped at \$150,000 (adjusted annually) for members hired on or after July 1, 1996.

The City Council was authorized to enact ordinances required to maintain the tax-qualified status of Tier 3 under federal law.

In January 1996, a new federal law prohibited states from taxing retirement income of nonresidents.

Effective December 5, 1996, pension benefits to the qualified surviving spouse of a deceased firefighter or police officer continue even if the spouse remarries.

The City implemented an Internal Revenue Code provision that required the System to collect member contributions on a pre-tax basis. Previously, member pension contributions were collected after-tax from July 1, 1982 to December 21, 1996; and pre-tax before July 1, 1982.

1997

A new Tier 4 pension plan (formerly Article XXXV, Plan 2) was established effective July 1, 1997. All Tier 3 members hired between December 8, 1980 and June 30, 1997 were given until June 30, 1998 to make an irrevocable transfer to Tier 4.

The Charter was also amended to allow, at the discretion of the City Council, administrative expenses, which shall include investment management expenses, to be paid from fund assets.

The City Council approved an ordinance lowering the eligibility age to 55 for the health insurance premium subsidy for members retiring on or after July 1, 1998 with at least 10 years of service.

The City Council was given authority to establish, by ordinance, survivor benefits for domestic partners and pension benefits for sworn employees brought into City employment by merger or contract for fire or police services.

A provision was established so that members hired July 1, 1997 through December 31, 1997 could irrevocably elect to transfer from Tier 4 to Tier 3. The provision allowed the Metropolitan Transportation Authority officers who merged into the Police Department to join either Tier 3 or Tier 4. A delay in the merger made it necessary to add this provision so that negotiated benefits could be provided.

2000

Effective January 17, 2000, domestic partners became eligible to receive survivor benefits under the same eligibility requirements as surviving spouses after filing a Declaration of Domestic Partnership with the Board of Fire and Police Pension Commissioners. Surviving spouses and domestic partners became eligible to receive a health insurance premium subsidy upon the member's death, subject to eligibility requirements.

The new City Charter became effective July 1, 2000. The primary changes affecting the System provided:

- 1. The official department name became the "Department of Fire and Police Pensions."
- 2. The plans were reorganized under a new Charter Article number. Articles XVII, XVIII, XXXV Plan 1, and XXXV Plan 2 are referred to as Tiers 1, 2, 3, and 4, respectively.
- 3. The Board of Fire and Police Pension Commissioners (Board) was expanded from seven to nine members to include an elected retired fire member and an elected retired police member.

- 4. The Board selects the General Manager, subject to confirmation by the Mayor and City Council, and may remove the General Manager, subject to confirmation by the Mayor.
- 5. Assistant General Manager positions are appointed on an exempt basis.
- 6. The powers, duties, and responsibilities of the Board are more expressly recognized and include:
 - A. Language consistent with the provisions of California Constitution Article XVI, Section 17:
 - B. The prudent person investment standard;
 - C. Sole and exclusive power to provide actuarial services;
 - D. Control over litigation and settlement of litigation that involves policies and funds under Board control; and
 - E. Deletion of the City Council's right to veto any Board decisions.
- 7. The definition of dependent parent was revised so that United States residency at the time of the member's death is no longer a requirement.

Charter changes were approved to:

- 1. Enable the City Council to establish by ordinance a Deferred Retirement Option Plan (DROP).
- 2. Combine all tiers into a single plan for funding purposes.
- 3. Require the City Council to create, by ordinance, a new Tier 5 pension plan effective January 1, 2002.
- 4. Allow surviving spouses who remarried prior to December 5, 1996 to collect survivorship benefits.
- 5. Enable the City Council to provide by ordinance a dental subsidy for retirees.

2002

By City Council ordinance, a new Tier 5 pension plan became effective January 1. Active members of existing tiers could elect to irrevocably transfer to Tier 5 during the period from January 2, 2002 to December 31, 2002.

The DROP Program became effective May 1, 2002.

A dental subsidy for retirees became effective January 1, 2002.

Effective January 1, 2001, retirees and surviving spouses/domestic partners not able to enroll in a Board-approved health plan because they live out of state or outside the service area of a Board-approved HMO became eligible to receive a health insurance premium reimbursement. Administration of the program began in 2002, retroactive to the effective date.

The first payment under the Excess Benefit Plan was made. This plan was first authorized in 1990 to supplement the benefits to certain employees to the extent such benefits are reduced by the limitations on benefits imposed by Section 415 of the Internal Revenue Code of 1986, as amended. This plan is nonqualified under the Internal Revenue Code.

2003

Annual active member statements of service credit and recorded contributions were issued to members for the first time since 1985.

Based on recent federal and state legislation, active members may use funds from deferred compensation to purchase service credit.

On January 20, 2005, an ordinance was enacted allowing former Tier 2 members who had prior service as paramedics or civilian ambulance personnel under the Los Angeles City Employees' Retirement System to purchase this period of service.

In the March 2005 election, the voters approved two Charter amendments. The first amendment authorized the City Council to adopt an ordinance to transfer the sworn Port Police Officers to Tier 5 of Fire and Police Pensions.

The second amendment provided the following:

- 1. Instituted return-to-duty provisions similar to those in Tier 2 to members in Tiers 3, 4, and 5.
- 2. Authorized the City Council to allow a City Defrayal of Employee Contributions by Ordinance. This means the City may pay a portion of the employee contributions to Tiers 3, 4, and 5, not to exceed 2% of the required contributions in lieu of a salary increase or a portion of an increase. This provision is to be used during Memorandum of Understanding negotiations as part of a total economic package and the cost will be evaluated at that time.
- 3. Authorized the City Council to set the maximum sworn retiree health insurance premium subsidy by ordinance. Prior to this change, the Charter limited the maximum sworn retiree health insurance premium subsidy to the lesser of the maximum active sworn member health subsidy or the maximum civilian retiree health subsidy. The City Council can delegate authority for setting sworn retiree subsidies to the Board of Fire and Police Pension Commissioners.

2006

An ordinance was effective January 4, 2006, which gave current Port Police Officers the choice of transferring to Tier 5 or remaining in the Los Angeles City Employees' Retirement System. Persons appointed on or after January 8, 2006, as specified in the ordinance, become members of Tier 5 upon graduation from academy training required by the Harbor Department.

The actuarial valuation of 2005 found the Plan less than 100% funded for pension benefits. As required by the Los Angeles Administrative Code, Tier 5 member contributions were increased to 9% effective July 1, 2006.

The election period for sworn Port Police Officers to transfer to Tier 5 closed on January 5, 2007, with 40 Port Police Officers electing membership in Tier 5.

On February 1, 2007, the Board of Fire and Police Pension Commissioners (Board) created an Audit Committee, followed by the creation of an Internal Audit function within the System.

On March 6, 2007, voters passed a Charter amendment giving the City Council authority to establish, by ordinance, a voluntary Public Service Purchase Program.

The City Council approved an extension of DROP, commencing May 1, 2007 and ending April 30, 2012, and excluded participation by the Chief Engineer of the Fire Department and the Chief of the Police Department.

In July 2007, the System began audits of the retiree medical and dental plans offered by the Los Angeles Firemen's Relief Association, the Los Angeles Police Protective League, the Los Angeles Police Relief Association, and the United Firefighters of Los Angeles City. The scope of the audits included eligibility, benefits, administration, and financial analysis.

On September 6, 2007, the Board voted to revise its proxy voting guidelines to vote "FOR" share-holder proposals that request management to report on climate change. This change was in light of survey results released by an advocacy group known as the Carbon Disclosure Project (CDP). The study determined that 80% of U.S. companies believe that climate change poses commercial risks for their businesses. As a result,

investors are encouraging more environmental disclosure from companies. The Supreme Court had ruled in April 2007 that greenhouse gases are a pollutant that may be regulated by the Environmental Protection Agency.

The first management audit of the System was conducted by Independent Fiduciary Services with the results released on December 3, 2007. Charter Section 1112 requires the City Controller, the Office of the Mayor, and the Los Angeles City Council to complete a management audit once every five years to be conducted by an independent, qualified management auditing firm. The purpose of the audit was to examine whether the System operates in the most efficient and economical manner. The audit found that the System was generally operating efficiently and in accordance with industry best practices, providing good investment returns overall, utilizing reasonable actuarial assumptions and methods, and pre-funding health insurance premium subsidy benefits.

2008

The City Council adopted the following amendments to the DROP Program:

- July 3, 2008 A DROP member who is subsequently appointed Fire or Police Chief prior to exiting DROP shall be allowed to rescind his/her DROP election.
- November 4, 2008 A definitive ending date for DROP was removed, and a member must be on an active duty/working status at the time of entry into the program.

On March 3, 2009, voters passed two Charter amendments:

- The first measure established a Survivor Benefit Purchase Program that allows retired members of the Plan to purchase, at their own expense, a survivor benefit for a spouse or domestic partner.
- 2. The second measure modified the Dependent (Disabled) Children Survivor Benefits provided by the Plan. Dependent Children may now marry or be adopted without losing the right to Dependent Child benefits. Additional payment options, which do not increase the amount of benefits payable, were also authorized. The Board of Fire and Police Pension Commissioners (Board) was granted the authority to pay Dependent Child benefits to a Special Needs Trust for the benefit of the disabled child.

On May 7, 2009, the Board terminated its contract with private equity consultant, Aldus Equity Partners. The termination was based in part on "pay-to-play" complaints filed against Aldus by the State of New York and the Securities and Exchange Commission. One of the founders of Aldus later pleaded guilty to felony securities fraud in the New York attorney general's pension fund corruption probe. In addition, two appointed commissioners resigned from the Board on this day.

On July 23, 2009, the Board adopted a "Contractor Disclosure Policy" to regulate the System's contractors and fine or terminate those who violate the policy. The policy complies with the provisions of Assembly Bill 1584 (later enacted into law on October 11, 2009), requiring the disclosure of gifts, campaign contributions, and meetings with the System's investment managers, consultants, and other contractors, to provide transparency and help avoid conflicts and the appearance of conflicts.

On April 1, 2010, the Board retained Northern Trust Benefit Payment Services as the issuer for monthly pension payments. The Northern Trust Benefit Payment Participant Web Passport System replaced the outdated mainframebased Retirement and Pension Payment System operated and maintained by the City of Los Angeles Office of the Controller and Information Technology Agency. In October 2010, the Plan issued pension payments utilizing the new benefit payment system for the first time. As a result of this transition, pensioners received 13 pension payments for Tax Year 2010, instead of the usual 12.

2011

On March 8, 2011, voters approved Charter Amendment G which:

- 1. Established a Tier 6 for new members effective July 1, 2011. As a result of pension reform, Tier 6 participants will be required to contribute 11%, 2% more than the Tier 5 maximum 9% contribution.
- 2. Removed the System's amortization policies from the Charter and the Los Angeles Administrative Code. Instead, these policies shall be adopted by the Board of Fire and Police Pension Commissioners upon the advice of its consulting actuary.

On July 15, 2011, the City Council adopted an ordinance to permanently freeze the retiree non-Medicare and Medicare health insurance premium subsidy benefits at the rates in effect on July 1, 2011 for members who enter DROP or retire on or after July 15, 2011. The ordinance also provided, per letters of agreement signed by each labor organization, an election period whereby the affected members could elect to unfreeze their retiree medical subsidy by making additional 2% "opt-in" contributions. The freeze does not apply to Tier 6 members, as they are required to contribute the additional 2%.

On May 15, 2012, the City Council approved a City Administrative Officer report that recommended consolidating the Department of General Services, Office of Public Safety (OPS), into the Police Department (LAPD). The consolidation was adopted with an effective date of July 1, 2012. OPS employees who successfully transition to a regular LAPD sworn classification had two years to make an irrevocable election to opt out of the Los Angeles City Employees' Retirement System and become a member of the Fire and Police Pension System. The opt-out election must have been made no later than December 12, 2014.

2013-2014

On June 27, 2013 and January 8, 2014, the City issued Management Audit Interim and Final Reports, constituting the second Charter-mandated audit of the System. The two audit reports determined that, overall, the System is generally operating in an effective manner.

On August 8, 2014, the City Council adopted an ordinance to add DROP provisions for Tier 6 members.

By December 12, 2014, a total of 22 former Office of Public Safety (OPS) employees who transitioned to regular sworn classifications with the Police Department opted out of the Los Angeles City Employees' Retirement System (LACERS) and became members of Tier 6 of the Fire and Police Pension System.

2015

The Board of Fire and Police Pension Commissioners engaged Segal Consulting to perform an Internal Revenue Code operational compliance audit of the System. The purpose of the audit was to perform an independent review of the administrative operations and practices of the System to determine whether it meets the standards set forth in the Plan documents and is compliant with applicable federal tax laws. The audit concluded that the Plan is substantially in

compliance with the requirements under the Internal Revenue Code, related Treasury Regulations and other applicable federal laws.

2016

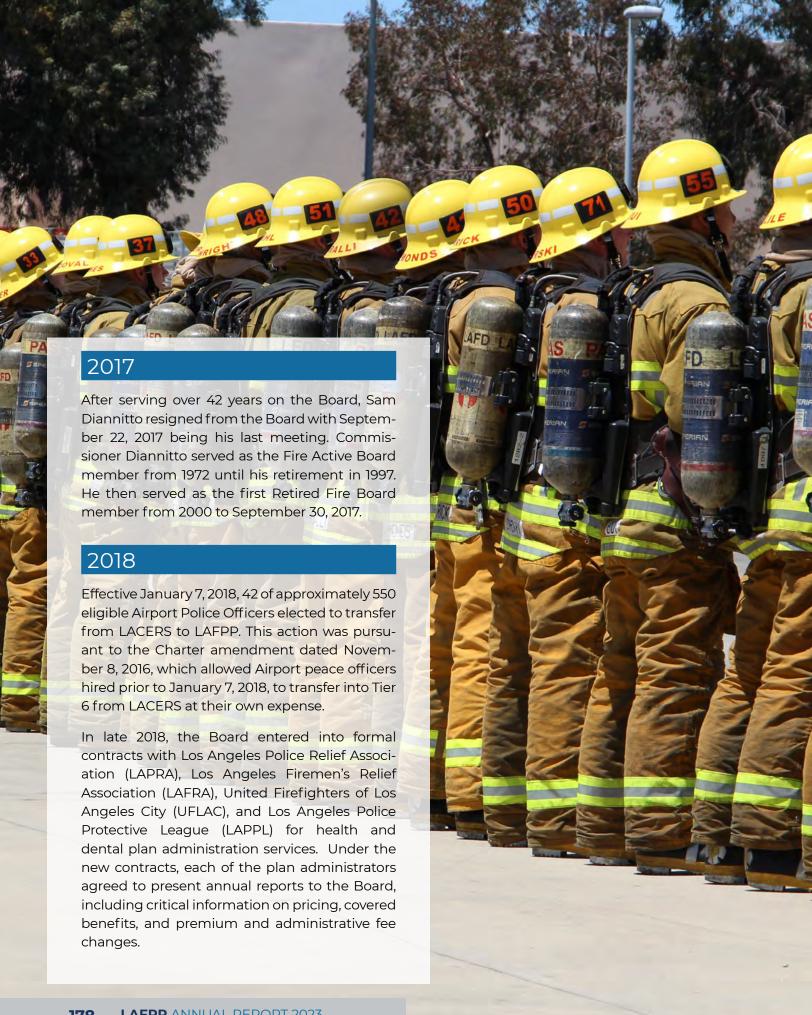

In March 2016, after nearly 30 years of leasing office space in Little Tokyo, LAFPP relocated to a new headquarters facility located in the Los Angeles Downtown Arts District.

On February 18, 2016, the Board's Specialized Private Equity Investment Manager Program was modified to include for the first time, Lesbian, Gay, Bisexual and Transgender (LGBT) owned or disabled veteran owned funds. By adding these ownership groups to the specialized program, LAFPP provides the LGBT and disabled veteran communities access to institutional investment capital. Additionally, LAFPP was recognized as one of the first pension systems in the country to provide this access to the LGBT community.

On May 19, 2016, the Board approved disbanding standing committees (Audit, Benefits, and Governance) due to active engagement and attendance by all Board Members.

On November 8, 2016, voters approved a Charter amendment which would: 1) Enroll new Airport peace officers hired on or after January 7, 2018, into Tier 6 of the Fire and Police Pension System; 2) Allow Airport peace officers hired prior to January 7, 2018, to transfer into Tier 6 from LACERS at their own expense; and 3) Permit new Airport Police Chiefs to transfer into LACERS rather than participate in Tier 6.

In January 2019, following negotiations between the City and labor unions over concerns that members were taking extended periods of time off after entering DROP, the City Council adopted the following amendments to the DROP program:

- Any member who enters DROP on or after February 1, 2019, shall have his/her participation in DROP suspended for any month in which he/she does not spend at least 112 hours on active duty.
- Members who sustain a serious injury on duty and are hospitalized for 3 or more consecutive days as a direct result of that injury, are exempt from the above provision for the first year following the date of injury.

2020

In response to the global COVID-19 pandemic, all in-person seminars and member counseling services were transitioned to virtual sessions. As a continued effort to protect the health and safety of staff and members, coupled with the positive response to these new formats, all virtual services have become a permanent service delivery option.

2022-2023

A permanent telecommuting and on-site hybrid work environment was implemented for staff.
